

MICRO WEDDINGS & ELOPEMENTS (LOCAL)

For couples planning a Micro Wedding or Elopement, (under 50 guests including bridal party), service needs may differ from our other packages. Micro Weddings & Elopements usually require less hands-on-deck for wedding day & offer a more laid-back, or non-traditional day. For these clients, we are happy to offer custom packages for their specific needs with discounted pricing from our Coordination & Wedding Management Services

NON-TRADITIONAL VENUES & PRIVATE RESIDENCES

For couples planning their big day at non-traditional venues like private residences, restaurants, or other venues not typically utilized for weddings & events, we are happy to create custom packages for necessary services. For weddings at private residences or other non-traditional venues, more preparation & day-of assistance is usually required. Oftentimes, our team designs & creates a functioning ceremony and/ or reception space from scratch to make it work for our couple. We want to talk through all elements with our traditional venue couples & offer a fair price for these necessary services.

DESTINATION WEDDINGS

Some couples want to use their wedding week or weekend as a celebration for them & their guests away from home. We think turning your wedding festivities into a vacation is a phenomenal idea! For our destination wedding couples, we create a custom package of services for Coordination or Wedding Management that best fit their needs based on location & other factors. We are also happy to offer large discounts on many destinations outside of Kentucky!
