- *Non Flammable**
- *Biodegradable**
- *Free Rinsing**
- *Phosphate Free**
- *Economical**
- *High Foam**
- *Protective Coating**
- *High Dilutions**

Hi Concentrate, Car Wash is a strong, yet gentle blend of anionic and cationic surfactants specially formulated for today's base/clear coat automotive finishes while remaining environmentally friendly. Super Sudz has exceptional wetting and rinsing qualities that leave the surface clean, shiny and spot free. A shiny protective coating is produced to give limited protection from acid rain fading and oxidation. Suitable for brushing and power wash applications. Removes road film and salt.

HC leaves a protective polymer coating to help retard and minimize rust and corrosion.

A CCS ENVIRO-SAFE PRODUCT

DIRECTIONS: Remove vehicle from direct sun and allow to cool before washing. Wet down with cold water. Apply solution using soft car brush, sponge or wash mitt. Wash from top to bottom. Wash no more than 1/4 section before rinsing with cold running water. Do not allow suds to dry on vehicle. Wipe dry with chamois or leave to air dry.

Mix through a hydro minder at 50 to 75 to 1, then run out through Hi Pressure soap system.
