

Triple Foamers, for Car Wash's is a strong, yet gentle blend of anionic and cationic surfactants specially formulated for today's base/clear coat automotive finishes while remaining environmentally friendly. Triple Foamers have exceptional wetting and rinsing qualities that leave the surface clean, shiny and spot free. A shiny protective coating is produced to give limited protection from acid rain fading and oxidation. Suitable for brushing and power wash applications. Removes road film and salt.

Leaves a protective polymer coating to help minimize rust and corrosion.

A CCS ENVIRO-SAFE PRODUCT

- \* **Safe To Use**
- \* **Non Flammable**
- \* **Biodegradable**
- \* **Free Rinsing**
- \* **Phosphate Free**
