TOURMALATED QUARTZ

The Stone of Balance and Harmony

Grounding- Protection- Spiritual Growth

Tourmalinated Quartz, is a powerful crystal that combines the grounding and deflection of negative energy found in Tourmaline with the energy amplification and consciousness-raising ability of Quartz. This unique crystal can help to bring balance to the Yin and Yang energies, and is often used as a good luck charm. The combination of Clear Quartz and Black Tourmaline creates a powerful ally in one's spiritual growth. While the Quartz can be an aid to those on the spiritual path, the Black Tourmaline can help keep one well-grounded, avoiding that out-of-touch sensation that can often result from being too focused on the higher pursuits.
