# Your pathway with Able Medico

Doctor flowchart | AD03

Start at the top. Every doctor begins with an introduction and a Due Diligence option. **The Due Diligence outcome determines the next step**: an introduction to an employer, College preparation first, or Seeking Employment.

## Key points

- **Due Diligence is mandatory** for every doctor we work with. It gives our opinion (not a guarantee) of the most likely College outcome and the gaps that, if filled, improve it.
- **Many employers fund** all or part of the support once you have an offer. Tell us if your employer has a support arrangement with us.
- **You can proceed without us** at any point. We're always here if you need assistance in future.

# Where each step sits on KnowMedical

Each step in the flowchart has a matching KnowMedical course or support package. Prices are in Australian dollars, exclude GST and are subject to our Terms and Conditions. Full descriptions are in AD02.1 KnowMedical courses.
