

POSITION DESCRIPTION: RADIOLOGIST

CONTEXT:

At Noosa Radiology we are committed to delivering high quality imaging and patient-focused care by remaining at the forefront of new imaging techniques to benefit our doctors, referrers, and patients. We provide a comprehensive range of imaging and procedural services including MRI, CT, nuclear imaging, breast imaging, ultrasound, fluoroscopy, BMD, dental imaging, and general X-Ray. We are a busy, professional and friendly practice, and our team goes above and beyond to give the greatest customer service to our patients every single day. Patient care is always our number one priority and focus.

PURPOSE OF POSITION:

Diagnostic and Interventional Radiologists provide diagnostic and treatment medical services and monitor patients with various diseases utilising imaging techniques such as general radiography, angiography, fluoroscopy, mammography, ultrasound, computed tomography, magnetic resonance imaging, nuclear medicine and bone densitometry.

MAIN RESPONSIBILITIES:

- Interpret and report on diagnostic imaging studies including X-ray, CT, MRI, Ultrasound, and Nuclear Medicine.
- Perform interventional radiology procedures where applicable (e.g., image-guided biopsies, drainages).
- Deliver timely and accurate reports to referring GPs and specialists.
- Collaborate with other healthcare professionals to ensure coordinated patient care.
- Supervise and provide clinical guidance to radiographers, sonographers, and junior medical staff.
- Adhere to local and national radiation safety standards and best practices.
- Contribute to quality assurance, audit activities, and ongoing clinical education.

KEY EXPERIENCE & QUALIFICATIONS:

- Medical Degree from a recognised institution.
- Fellowship of the Royal Australian and New Zealand College of Radiologists (FRANZCR).
- Current specialist registration with AHPRA.
- Appropriate credentialing and working rights in Australia.
- Subspecialty training (e.g., musculoskeletal, neuroradiology, breast imaging, interventional radiology) desirable but not essential.

SKILLS & ATTRIBUTES:

- Expertise in diagnostic imaging with a high level of accuracy and attention to detail.
- Strong communication skills, both written and verbal.
- Ability to work independently and in multidisciplinary teams.
- Commitment to continuing professional development and evidence-based practice.
- Proficiency with radiology reporting software and PACS/RIS systems.
- Understanding of Medicare billing requirements and ethical billing practices.

I have read and understand this position description and acknowledge that I have the competencies to fulfil this position. I understand that the company may change the Position Description from time to time to suit the needs of the business.
