

| WATERMARK APARTMENTS

Dear Resident,

Re: Stay Informed About Your Building

At '**Watermark**' 1-9 Beach Street, The Entrance we utilise an online communication system called MiMOR.

Once registered you will gain access to important **Building Contact Details** and **Building Information** including gas, electricity, Foxtel, additional keys, lift and other building details.

You will also receive important building notifications via email and/or SMS e.g. if the garage door is not working or fire services inspection, you will receive an email or SMS. All residents receive the information so there is no confusion.

If you identify an issue in the building that needs to be rectified, you can use the online service to report the matter. Ensuring we can quickly address the issue.

You can also book your **Move-In or Move-Out** of the building. You simply select your date and time and the relevant people will be notified.

Gain easy access to building rules and guidelines which ensure there is no confusion, ultimately creating harmonious communities.

We will keep you up to date and informed which is why we ask all residents and owners to register.

Kind Regards,

Your Strata Committee SP84451
