## LICENSING

Implement a monthly CEU program that caters to your company needs with qualifying state licensing credits for all categories. This program will also ensure no licenses are lacking hours annually for technician renewal periods. It's automated and allows direct auditor access from state entities.

## TECHNICAL TRAINING

Remote trainings on various target pest species are a necessity for you and your team. I can create training documents, presentations, videos and more. I can review your current training material and provide suggested enhancements as well.

## QUALITY ASSURANCE

Do you have a program in place? Are you using a software to do this? I have created and implemented QA programs for companies like Terminix, Advanced IPM and Innovative Pest Solutions. All PCT Top 100 companies.

## SOFTWARE ANALYSIS

Ensure you are utilizing all softwares to their fullest potential and maximizing efficiencies while ensuring you are not spending monies on unnecessary softwares. I have saved companies and end users between \$50,000-\$250,000 on various contracts.

## BOARD CERTIFIED ENTOMOLOGIST

Offers proper and accurate insect identifications. This also ensures all marketing material leaves with stamp of approval from a "Board Certified Entomologist".

## SOCIAL MEDIA MARKETING

With over 500K followers on Tiktok, I must be doing something right! I can easily help your company grow on any social media platform. With the right direction, I can help you grow thousands of followers over night.
