Section 4	 FIRST-AID MEASURES

4.1. Description of first-aid measures	
Inhalation:	Move affected person to fresh air at once. Rinse nose and mouth with water. Get medical attention if symptoms are severe or persist.
Ingestion:	Never give anything by mouth to an unconscious person. Do not induce vomiting, unless instructed by a healthcare professional. Rinse mouth thoroughly with water. Get medical attention if any symptoms develop.
Skin Contact:	Remove affected person from source of contamination. Take off immediately all contaminated clothing and wash it before reuse. Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.

Eye Contact: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 15 minutes. Get medical attention if irritation

persists after washing.

4.2. Most important symptoms and effect, both acute and delayed

Inhalation: May cause respiratory irritation. There may be irritation of the

throat with a feeling of tightness in the chest.

Ingestion: Ingestion may cause nausea, vomiting and stomach and digestive

irritation. There may be soreness and redness of the mouth and

throat.

Skin Contact: Skin contact may cause redness and irritation. Prolonged or

repeated skin contact can result in the development of allergy-like

skin reactions (e.g., dermatitis, rashes)

Eye Contact: There may be irritation and redness. Profuse watering of the eyes.

4.3. Indication of any immediate medical attention and special treatment needed

Notes for doctor: No specific recommendations. If in doubt, get medical attention

promptly. Treatment may vary with the condition of victim and

specifics of incident.

Specific treatments: Eye bathing equipment should be available on the premises.

Protective equipment

General information: Protective engineering solutions should be implemented and in use before

personal protective equipment is considered.

Appropriate engineering controls: Ensure that eyewash stations and safety showers are close to the

workstation location. Ensure adequate ventilation.

Eye / face protection: Use chemical splash-type goggles. Face shield.

Hand protection: For hand protection, wear approved gloves made of nitrile, PVC, or

neoprene. Thoroughly rinse the outside of gloves with water prior to

removal. Inspect regularly for leaks.

Other skin and body protection: For body protection wear suitable protective clothing.

Hygiene measures: Avoid breathing vapors, mist or gas. Clean water should be available for

washing in case of eye or skin contamination.

Respiratory protection: If concentrations in excess of 10 ppm are expected, use NIOSH/DHHS

approved self-contained breathing apparatus (SCBA) or other approved air-supplied respirator (ASR) equipment (e.g., a full-face airline respirator

(ALR)).

Environmental exposure controls: Eye bathing equipment should be available on the premises. Provide
