

## 4. How to subtract large numbers without a calculator

### Practice Questions:

1. What is the difference between 987 and 456?

2. Find the result when you subtract 789 from 1234.

3. Calculate the difference between 876 and 345.

4. What is the answer when you subtract 555 from 1234?

5. Find the result when you subtract 567 from 890.

## 4. How to subtract large numbers without a calculator

### Practice Questions:

6. Calculate the difference between 901 and 234.

7. What is the answer when you subtract 123 from 789?

8. Find the result when you subtract 432 from 901.

9. Calculate the difference between 345 and 123.

10. What is the answer when you subtract 878 from 987?

# 4. How to subtract large numbers without a calculator

## Practice Questions: **Answers**

1. What is the difference between 987 and 456?

**1. The difference is 531.**

2. Find the result when you subtract 789 from 1234.

**2. The result is 445.**

3. Calculate the difference between 876 and 345.

**3. The difference is 531.**

4. What is the answer when you subtract 555 from 1234?

**4. The answer is 679.**

5. Find the result when you subtract 567 from 890.

**5. The result is 323.**

6. Calculate the difference between 901 and 234.

**6. The difference is 667.**

7. What is the answer when you subtract 123 from 789?

**7. The answer is 666.**

8. Find the result when you subtract 432 from 901.

**8. The result is 469.**

9. Calculate the difference between 345 and 123.

**9. The difference is 222.**

10. What is the answer when you subtract 878 from 987?

**10. The answer is 109.**
