

55. How to recognise 2D interpretations of 3D shapes

Practice Questions:

1. What is the name of this 3D shape?

2. What is the name of this 3D shape?

3. What is the name of this 3D shape?

4. What is the name of this 3D shape?

5. What is the name of this 3D shape?

55. How to recognise 2D interpretations of 3D shapes

Practice Questions:

6. What is the name of this 3D shape?

7. What is the name of this 3D shape?

8. What is the name of this 3D shape?

9. What is the name of this 3D shape?

10. What is the name of this 3D shape?

55. How to recognise 2D interpretations of 3D shapes

Practice Questions: **Answers**

1. What is the name of this 3D shape?

1. Cuboid or Rectangular Prism

2. What is the name of this 3D shape?

2. Cone

3. What is the name of this 3D shape?

3. Cylinder or Circular Prism

4. What is the name of this 3D shape?

4. Sphere

5. What is the name of this 3D shape?

5. Triangular Prism

55. How to recognise 2D interpretations of 3D shapes

Practice Questions: **Answers**

6. What is the name of this 3D shape?

6. Cube

7. What is the name of this 3D shape?

7. Pyramid

8. What is the name of this 3D shape?

8. Hemisphere

9. What is the name of this 3D shape?

9. Trapezium Prism

10. What is the name of this 3D shape?

10. Pentagonal Prism
