Air Racing: Past, Present and Future

RenegadeAV8R and Reno Air Racing Association cooperate on a new podcast.

Reno, Nevada (4 March 24) - Air racing in Reno, NV started 60 years ago. Following the disappointing revelation that the National Championship Air Races must seek a new home for their storied event, racers and fans eagerly await the next chapter in air racing. RenegadeAV8R and Reno Air Racing Association provide the opportunity to stay connected while the next chapter is written.

Air Racing: Past, Present, and Future with RenegadeAV8R will launch on 6 March 2024. Tony Logoteta, Chief Operating Officer, Reno Air Racing Association will join David Costa, RenegadeAV8R for the inaugural show.

"So many volunteers, race teams, and fans are disappointed since the news of the National Championship Air Races leaving Reno, NV", says David Costa. "I want to talk to my friends in air racing and meet new ones. Let's talk about the lore of air racing, the history, and stories from those who made history, in anticipation of the next chapter in the world's fastest motorsport!"

Air Racing: Past, Present, and Future with RenegadeAV8R will include interviews with racers, volunteers, fans, and the people behind air racing. The format will allow live questions and encourage fans to participate.

Tony Logoteta, Chief Operating Officer, Reno Air Racing Association, had this to say about this next chapter in air racing. "While leaving Reno was certainly not a situation we wanted, the fact is that this is not the end of air racing, but a new beginning. While we're sad to leave our historic home, it's also an exciting time and we're very confident that our new location will be a great place to gather our Air Racing Family. First, though, we'll celebrate 60 years in Reno with a

world-class air show. While we won't be racing, it will be a celebration of all the pageantry and excitement that our event has brought to the area for six decades"

The Reno Air Racing Association is thrilled to announce that the US Navy Blue Angels, the Canadian Snowbirds, and the USAF F-16 Viper Demonstration Team will all be coming to Reno on October 4-6, 2024! RenegadeAV8R will fly as a performer in this event.

The National Championship Air Races have been in Reno, NV since 1964. Air racing in Reno has produced substantial revenue for the community. Air Racing is unique and exciting, a one-of-a-kind event. The new podcast promises to give the audience an insider's view of air racing. We invite fans and racers to join the conversation.

David will bring his irreverent style and insight to this topic. David continues, "It would not be RenegadeAV8R without a few surprises and a bit of an attitude. This will be fun! I am proud to be a small part of this huge effort to keep air racing alive and well for years to come!"

Air Racing: Past, Present, and Future with RenegadeAV8R is available by live stream and on most podcast platforms. For more details visit www.RenegadeAV8R.com.

About RenegadeAV8R

RenegadeAV8R is about jet airshows and the passion for all things aviation. We fly airshow demos in the TS-11 Iskra Jet. The Iskra, a former military jet, served over 50 years in active military service. It is the only example of this aircraft on the airshow circuit.

David Costa is the TS-11 Iskra demonstration pilot and host of several podcasts. He is a jet Captain and flight instructor with over 18,000 hours of flight time in almost 200 different types of aircraft. David is sought after as a pilot expert in aviation accidents. He flies, brokers, and manages business jets.

David is available for interviews and expert opinion on all aviation matters. Visit www.RenegadeAV8R.com or contact us for a link to our media file.
