

BEACON OF HOPE MINISTRIES

February 2024 Newsletter

We would like to start by thanking each of you for your prayers, communications and support.

Two months of fully submerged language school down, with only one more to go for this trip!

Time seemed to be creeping by last month, but it seems the throttle has shifted now. This month has been packed with excitement as well as a few sad moments, when we had to say goodbye too soon to new friends. There have been many fun learning experiences with the Institute this month, including a Honduran cooking class, a hike to a waterfall with fellow students on "Friendship Day," and an evening of helping a local church distribute backpacks to kids in the community.

The middle of February, we received super exciting news that was an answer to many prayers! The state of VA finally completed our approval for Beacon of Hope Ministries.

We were also able to make a quick weekend trip to Roatán. So much progress has been made on the church there in the past year and the kids in the barrio were so excited that we came! We were able to get in some Spanish practice in an actual church service with testimonies and songs. Our last night there, Josh had a conversation with a gentleman. He told Josh that at one time Jesus had lived in his heart, but Jesus no longer lived there anymore. He allowed Josh to pray with him. It's so exciting to see a hunger in people's hearts for things of God, and to see the tugging God places on individual's hearts to let them know that he has an interest in their heart and life. God is ALWAYS faithful!

Continue to pray for both the work that God is doing on Roatán Island and for our family as we advance in our study of the language.
