

ON PURPOSE

2024 Point-of-Sale Research Consumer Sentiment In the E-Commerce Space

63% of people have donated to a charity via a retailer's website in the last 12 months

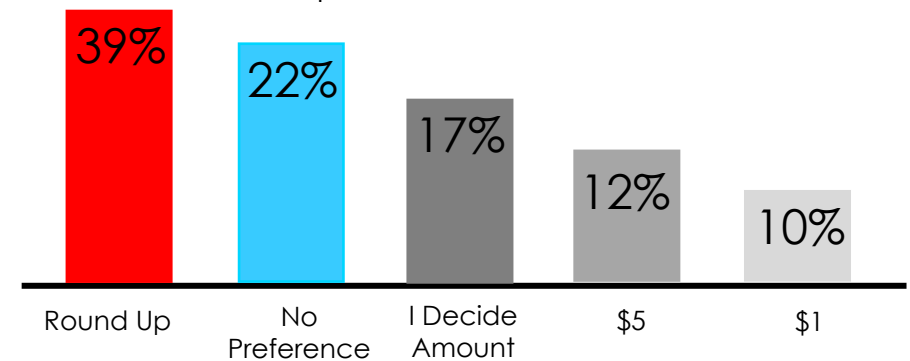

48% of people prefer to be asked to donate before their digital check out vs. donating after the cart is paid (30% don't have a preference)

66% of those that donated through a retailer's website were women

67% of those that donated through a retailer's website felt neutral or positive about being asked to give

"When shopping digitally and being asked to donate, how would you prefer to donate?"

"When asked to give to a charity on a retailer's website, what information do you want to see about the charity you are being asked to donate to?"

"What motivated you to give to the charity through the retailer's website?"

- #1 Giving made me feel like a hero
- #2 I have a personal connection to the cause or charity
- #3 Because I was asked to give

"Why did you decide not to give to the charity through the retailer's website?"

- #1 There was not enough info about what my donation would do to help
- #2 I don't like being asked to donate to a cause while I am shopping
- #3 There was not enough information about the charity
