

We can help your town save money and communicate more effectively

How much money do you spend on mail-outs?

Consider the cost of stamps/envelopes/paper/printing and the cost of a person's time to sort it all out. It all adds up! \$\$\$\$

What does your town mail out? Garbage calendars, event calendars, tax notices, newsletters?

Our system does not just send emergency alerts. You can also send out information about events, town meetings, road construction, etc. You can upload calendars and other information too.

All these options make our system a COMPLETE communication system. Our system is the smart choice for towns that want to save money and keep their citizens informed.

Apart from alerts, you can choose a variety of buttons to have on your app's homepage. Here are just a few samples.

 News	 Info	 Garbage +	 Calendar
Do you have a newsletter for your town? You can easily upload it to your town's app – quarterly, yearly, or whenever required.	This button can be used in any situation. General information about your town for tourists, what to do in case of a boil-water advisory, information about your town's opening hours, etc.	Garbage/recycling/composting calendars. Citizens can now have their calendar with them all the time rather than just at home, on the fridge.	Any type of calendar that your town chooses: town meetings calendar, sports calendar, etc. You can use this button for whatever you choose.
