## *DID YOU KNOW?*

The "fizz" in fermented drinks is a natural byproduct of the fermentation process, created by the live cultures consuming sugars.

**"Gut Refreshments"** is a curated collection of handcrafted fermented beverages designed to tantalize your taste buds and invigorate your digestive system.

We've taken wholesome ingredients and transformed them through the magic of fermentation, creating naturally effervescent drinks packed with probiotics and flavor.

FERMENTINA

Sip Your Way  
to a *Happier* Gut.
