

## Additional Information

## Closing the Achievement Gap

Schools earn additional credit when their high-need students make exemplary gains. These gains are based on the percentage of high-need students who improve by at least one-half of a proficiency level in English Language Arts or Math (e.g., student improves from 2.25 to 2.75 in ELA, or 3.20 to 3.70 in Math).

This component can only improve a school's Progress Report grade. It cannot lower a school's grade.

| Credit | Exemplary <br> Proficiency <br> Gains | Student Group |
| :--- | :--- | :--- |
|  | $18.8 \%$ | English Language Arts |
|  | $26.5 \%$ | English Language Learners |
| +1.5 | $45.5 \%$ | Hispanic Students in the Lowest Third Citywide Education Students |
| +1.5 | $43.8 \%$ | Black Students in the Lowest Third Citywide |
|  | $33.3 \%$ | Other Students in the Lowest Third Citywide |
|  |  | Mathematics |
| +1.5 | $34.2 \%$ | English Language Learners |
| +1.5 | $38.1 \%$ | Special Education Students |
| +1.5 | $71.4 \%$ | Hispanic Students in the Lowest Third Citywide |
| +1.5 | $70.0 \%$ | Black Students in the Lowest Third Citywide |
|  | - | Other Students in the Lowest Third Citywide |

$(-)$ indicates less than 15 students in this category

## Peer Schools

Each school's performance is compared to the performance of schools in its peer group. Peer schools are those New York City public schools with a student population most like this school's population. Each school has up to 40 peer schools.

For Elementary and K-8 Schools, peer schools are determined based on the percentage of students at each school that are English Language Learners, Special Education, Black/Hispanic and Title I eligible.
For Middle Schools, peer schools are determined based on the average ELA and Math proficiency levels of the school's students before they entered Middle School.

The peer schools for P.S. 126 Jacob August Riis are:

## Results by Category <br> SCHOOL P.S. 126 Jacob August Riis

HOW TO INTERPRET THIS CHART
A school is evaluated by asking how far its score in each category has moved along the range of scores for all schools. These charts show that movement as a percentage. In the example to the right, the school's score is $75 \%$ of the way from the lowest to the highest score in the City.

If a school performs at the top end of the range, the bar will be fully shaded. If a school performs at the low end of the range, the bar will not be shaded. If a school performs in the middle of the range, half the bar will be shaded

In this example, the school's attendance is $95 \%$. This is $75 \%$ of the way from the lowest attendance at any school $(80 \%)$ to the highest attendance ( $100 \%$ ).

Below, the green charts on the left compare the school to its peer group. The blue charts on the right compare the school to schools Citywide. Peer scores count three times as much as City scores. Peer and City ranges are based on the outcomes of schools from 2005-08.
