

# 2021 Becker High School Bass Team

*"Providing Opportunities ~ We Only Dreamed Of!"*

We were extremely fortunate to spend time outside and to get out fishing!

There are two required components that allow our team to be successful. It is the time, commitment and resources provided from our volunteers and the gracious giving, help and funding from our sponsors.

It really is that simple. Without either of these, volunteers and sponsors, we couldn't provide these opportunities to our student anglers. As our team grows through the seasons, we acknowledge that have been blessed with these resources. We make every attempt to utilize them wisely. When we are not focused on chasing money or volunteers, it gives us the ability to concentrate on our student anglers and fishing! Each year ~ Many adventures, personal bests, accomplishments, and stories to be told for years to come. Making unforgettable memories!

As a coaching staff we weigh our success by improving the skill levels of all the anglers on our team. We intentionally coach, but also mentor with focus on communication, responsibility, participation, and volunteering. We want our anglers to be successful fishing and in life. We continue to push ourselves in attempts to be one of the most well-rounded, respected and solid teams in Minnesota.

When you teach, hold accountable, and provide opportunities - you learn to perform well.

So, with all of that being said we humbly like to show our successes too!
