February Recap

February was a busy month for us here at Siatech Mycroschool with exciting events and activities that brought our students and staff together.

We started off the month with our FTE spirit week from February 6th-10th. Our students and staff showed off their wacky and creative sides during themed days such as pajama day and wacky tack day. The week ended with an African American Heritage Celebration where students enjoyed a catered African American meal. It was a great way for our community to come together and celebrate our diversity.

On February 8th, we celebrated our Principal Emma Lewis's birthday. Her staff surprised her with a cake and gifts to show our appreciation for her leadership and dedication to our school. We are grateful for her guidance and support as we continue to strive for academic excellence.

Our students also took a trip to the Historical Cotton Club Museum and Cultural Center in Gainesville, FL. This was an excellent opportunity for our students to learn about the history and culture of African Americans in Gainesville and North Central Florida. We believe that learning outside of the classroom is just as important as learning inside of it, and we are grateful for the opportunity to provide our students with these experiences.

We are also thrilled to see the success of our Brag Different Incentive program. This program encourages our students to complete courses and stay engaged in their education. Students who complete one course or more get to attend our monthly "Brag Party." This month's party had the most students in attendance yet. We are excited to see our students take ownership of their education and strive for success.

As always, please follow us on Instagram @siatechmycro_school for important school updates. We are proud to be part of such a wonderful community and look forward to sharing more updates with you in the future.

Sincerely,

The Siatech Mycroschool Team

March Recap

March was a busy and exciting month for us, filled with community outreach efforts, a field trip, and our Brag Different incentive program. We're thrilled to share our latest news with you.

We started off the month by participating in the Peace in Action gun violence prevention resource fair. We joined other local organizations to provide resources and support to the community, as we work together towards a safer and more peaceful future. We also had the opportunity to connect with potential students at "The World Awaits- Let's Get Ready" Youth Summit, where our staff members informed attendees about the benefits of attending Mycroschool.

Our students also went on a field trip to the CADE Museum in downtown Gainesville. They had the opportunity to learn about the history of electricity and its impact on our daily lives. Through hands-on activities and exhibits, they explored the works of pioneers such as Lewis Latimer, Thomas Edison, and Nikola Tesla.

We're also proud to share that our Brag Different incentive program continues to thrive, and this month's Brag Party was a great success. We've seen a significant increase in attendance, and we're thrilled to celebrate our first early graduate, Davionna C. She joined us in August 2022 and will be graduating in May, and we're incredibly proud of her accomplishments. We know she'll continue to achieve great things in the future.

As always, we invite you to stay up to date with all of our school news and events by following us on Instagram @siatechmycro_school.

Thank you for your continued support, and we look forward to sharing more exciting news with you soon.

Sincerely,

The Siatech Mycroschool Team
