

Angela L. Brant,

B's Regulatory Consulting Service LLC

Regulatory Compliance → Quality Assurance → Quality Control → Quality-Driven

abrant.rcs@gmail.com; (567) 203-8242

Auditing Experience:

- On-site inspections of GMP (Good Manufacture Procedures) facilities. Including daily, monthly, and yearly compliance inspections.
- In-process inspections/auditing of GMP WI (Work Instructions), QA (Quality Assurance) hourly inspections/auditing of laborer personnel GMP documentation.
- Writing and designing GMP WI, proofreading and finishing for review and approval prior to implementation.
- QA inspections of finished goods, retains and incoming components (ex: chemicals, fragrances).
- On-site inspection of GLP facilities, report writing and quality oversight of GLP/GMP companies.
- Remote inspections and audits of Quality Assurance, data collection, dosing, and other compliance procedures.

Current Status:

Independent Regulatory Consultant (Intern with Regulatory Consulting Services, LLC)

July 7,2025 -present

- I am training to become someone who can customize a Quality Assurance (QA) and/or Quality Control (QC) program based on individual corporate needs; these needs could be simple or complex, from a facility or regulatory inspection. Assessing the individual needs of a corporation is important and setting up a working partnership based on trust is essential.

Employment History

BARBASOL, LLC Ashland, Ohio QA GMP Inspector lead

June 2017-June 2025

- *Functioned as one of the leads of quality inspectors for multiple production lines, auditing and inspecting of all process points of the production of shaving cream. I oversaw the process of formulations(compounding); to the compounded product transferred to individual lines for processing throughout the production line for the finished goods.*
- *Over saw the process of GMP regulations, as well as the SOP's (Standard Operating Procedures) in place for the facility, along with WI, and forms.*
- *QA inspections of incoming products f used in the manufacturing of shaving cream.*
- *QA data collections including multiple checkpoints named by SOP's set-in place.*
- *Training new hires in the importance of following the GMP and proper documentation.*

ABER'S TOWING & CRANE SERVICE, ABER'S TRANSPORTATION Ashland, Ohio

August 2008-June 2017

- *Was the lead Transportation Officer for the entire company. I oversaw that all USDOT, ODOT and all other transportation regulations were being adhered to by our employees.*
- *Daily inspections of our driver's daily logs, manifest, and other paperwork as determined necessary by law and Aber's.*
- *Training every 6 months in new regulations and laws, which have been changed or amended by Federal and State DOT regulations.*
