---

June 10,24 voted for Cassella to come and present the Community Host Agreement, which is in the May 20,24 working session minutes. June 17,24 is the date it was executed. July 29<sup>th</sup> Cassella did the presentation and tipping fees, which was handed out at the meetings. October 28 Cassella came in to answer questions on the proposed transfer station. In early 2023 Christine Orteiz gave me a copy of the host agreement which was the first one I've seen. All these have been given to the select board members with the exception of Christine Orteiz. This is how I obtained the information.  
I have nothing else, no phone, email, or texts.

Good morning,

Please respond and let me know when your documents will be sent to me so I can compile them for our formal response to Mandy. What is specifically being requested is highlighted below.

Thank you,  
Jeanette

Subject: Right to know information

Good afternoon select board,

I am requesting communications between Casella and Selectboard members in regards to any host agreement conversations via email, text, or phone conversations from the time that selectmen Thomas Dubreuil took his oath of office to present.

I would also like a copy of the letter that is going to the lawyer that was presented to the selectboard members at the most recent select board meeting on October 15, 2024.

It was suggested via a selectboard member that residents do their own research and therefore thank

you in advance for helping me do so.

Sincerely,  
Amanda Deveno
