

Remediate, NOT Reopen, Dummer Yard

We, the undersigned, as citizens of the City of Berlin, are opposed to the reopening of the Dummer Yard Landfill as a soil monofill for contaminated soils trucked into Berlin, NH from across New England. This project poses a significant threat to the surrounding environment, as well as the health and safety of the general public.

We urge our elected representatives to join us in opposition to this senseless project, which would significantly add to the current level of site contamination at the Dummer Yard Landfill property. Instead, we request that our elected officials work in conjunction with the NH Department of Environmental Services and the State Legislature, to fund the remediation required to address the current level of contamination at the Dummer Yard Landfill property.
