Re: NHDES File #2020-02239

Dear Pam:

This letter serves as notice of Granite State Landfill, LLC ("GSL") that, in light of field work and reports recently requested by federal regulators as part of GSL's forthcoming federal applications, and NHDES's preference to coordinate application review with that of its federal counterparts, GSL is withdrawing its pending wetlands permit application designated as NHDES File #2020-02239. GSL plans to file a new wetlands permit application in 2022 contemporaneously with applications for a Section 404 permit from the Army Corps of Engineers, a Section 401 certification, and a New Hampshire Alteration of Terrain permit.

Please confirm receipt of this notice, and that the October 26, 2021 extension agreement between GSL and NHDES is mooted by withdrawal of the pending application.

Very truly yours,

*Bryan K. Gould*
