

Phillip Bryce, Director
NH Division of Parks and Recreation
172 Pembroke Rd, Concord, NH 03301

July 7, 2020

Dear Phil,

It has been brought to our attention that the Town of Dalton is working with your Department regarding the operations of Forest Lake State Park. As you recall when we met last June, we presented an overall view of our proposed Project in Dalton and expressed our interest in working with your Agency to help fund FLSP infrastructure improvements, operations expenses, water quality testing and improvements, etc.... The project in Dalton continues to progress and our offer to support FLSP is still available.

We also recognize New Hampshire's budget shortfall of 20% in both 2020 and 2021 creating even more financial limitations for the Department.

Casella values the communities in which we operate and service. We believe this to be a great opportunity to help local communities like Dalton, Whitefield, and surrounding towns. We would like to have a possible conference call or zoom meeting to discuss what, if any, Casella can do to help with this effort.

Respectfully,

Kevin Roy
