---

Pam, We received a phone call from Jesse Wentworth with the Town Dalton (603) 837-2092 requesting our (and your) presence at a public hearing on 7/23 with respect to our siting evaluation for a landfill in Dalton.

As you know we are very early on with this process and we are focused on site characteristics including primarily geology, hydrogeology and wetlands.

Nonetheless there is a local opposition group that has used misrepresentation of our project and hypothetical impact on Forest Lake and as a result riled the Town. Therefore, a request for emergency zoning is afoot and this Hearing on the 23<sup>rd</sup> is related to that.

The Town (Jesse) seemed most interested in having the DES present to residents the process by which a landfill would be permitted. I think it might be best to contact them directly as I would really not want to misrepresent what they are looking for from DES. (PS – I think Mike W. has a meeting with the opposition group today sometime)

Perhaps they have already reached out to you directly but thought it would be prudent (if they hadn't) to get it on your radar sooner than later.
