

Protect The Ammonoosuc River!

We, the undersigned, as business owners in the Town of Littleton, urge the Town of Littleton Board of Selectmen to protect the Ammonoosuc River by opposing the creation of a 2nd garbage landfill on the Ammonoosuc River by Casella Waste Systems at Douglas Drive in Bethlehem/Dalton. The location and size of the proposed landfill, in such close proximity to the Ammonoosuc River, poses a substantial threat not only to the river, but the safe and orderly development of the region, and in particular, the Littleton River District.

The Town of Littleton relies heavily on the scenic character and beauty of our North Country environment, and particularly the Ammonoosuc River. It is our intent to protect our vital natural resources, pristine environment, and tourism industry, all of which would be negatively impacted by this development. There is a reason why our town has been named a "Great American Main Street Community" and we must be vigilant to keep it so.
