Solid Waste Management Bureau
Memo to File

TO: File

FROM: Mary F. Daun, P.E., Solid Waste Management Bureau, NHDES

SUBJECT: NCES Landfill – Record of Telephone Conversation

DATE: April 17, 2025

I contacted Lindey Menard, Casella Environmental Manager, at approximately 1:10 pm on April 17, 2025 regarding her phone message on April 15, 2025 reporting the exceedance of 12 inches of head on the primary liner system of the NCES Landfill. She stated that due to the flushing and cleaning of primary leachate lines, the 12 inches of head was briefly exceeded at pump station no.2 by about 19 inches above the 1 ft level. She stated that the cleaning of the primary leachate lines will extend into next week, and that there may be additional exceedances. I stated I will review the written incident report to be submitted by NCES on Friday, April 18, 2025.
