

Save Forest Lake got a shout-out

Candidate for governor Ayotte said she opposed placing a landfill next to Forest Lake State Park.

Last week she cranked that up a notch.

Ayotte said landfill developer Casella Waste Systems would do well to hit the bricks.

“I really hope those that have proposed that project in Dalton rethink what they are doing,” Ayotte said. “It is not just me who doesn’t think it is the right thing.”

But Ayotte stressed that the application process before state officials will not be disrupted as long as Casella wants to try.

“The Department of Environmental Services has a legal process that it has to follow; I am not going to interfere in that legal process,” Ayotte said.

When a reporter asked if she was going to “do anything” to advance her opposition to the project, Ayotte answered, “I just did.”
