

THE CITY OF
Martinsville
INDIANA

June 11, 2021

To the Morgan County History Center & Museum Board and all those concerned:

On behalf of the City of Martinsville, I wish to convey our congratulations to all those responsible for the development of the History Center and Museum.

As you know, the building selected to house the center has many fond memories for my family as it was where our business, and our home, was for many years. And, I promise you we did not leave any skeletons in the closets. However, on a serious note, the rich history of the building brings with it much to enhance the new purpose of the building.

It is the city's hope that this center and museum will become a place where our local citizens and visitors to our city will come to learn about the great heritage of our county. We also hope that many will enjoy the seeing the many artifacts that will be housed here.

Again, congratulations on the opening of the center and we wish you much success in the years ahead.

Sincerely,

Kenny Costin
Mayor
City of Martinsville
