10/1/25 Update

**On October 1, 2025, the
Lassen County Sheriff
uploaded a new version of
CrimeGraphics.com.**

**This new format eliminates
“incarceration” data and
continues to manually update
Call (Dispatch) data which
offers manipulated &
incomplete daily reports**

PREFACE

CLCSOC has copies of the Lassen County Sheriff's CrimeGraphics.com "Media Bulletin" data from July 1, 2024 to September 30, 2025 and will continue to monitor this data.

The data, in this report, has been collected from three sources: Arrest Records, Incarceration Records and Court Records and shows public crime records have been altered and deleted.

The Crime Graphics Software (Citizens RIMS) is the Sun Ridge System that the Lassen County Sheriff Sheriff Department purchased to report crimes in Lassen County. The "arrest" and "incarcerated" data is allegedly an automated feature however these two sections never report the same data. The "media bulletin" feature is manually inputted and deletes from 56% to 71% of the actual crime data

The Lassen County Sheriff's CrimeGraphics.com "Media Bulletin" was never meant to be an honest account, to the public, of crime in Lassen County, just a deception.

This is to create the "illusion" or perception that there is little to no crime in Lassen County

Lassen County law enforcement (CHP, Susanville Police and the Sheriff Deputies) enforce the laws

The Lassen County Sheriff decides which crimes will be forwarded to the District Attorney. The District Attorney decides which cases will be prosecuted. The Court decides which cases will be heard

To delete the arrest records is a disservice to all law enforcement officers who put their lives on the line 24/7.

To delete the arrest records is a disservice to the public who think they are SAFE.

The following data will verify this deception and show that the Lassen County Sheriff & County Board of Supervisors are unwilling to disclose the truth.
