

- Sports: Individual & Team Photos -

AdenalineShots Sports Media Studio is excited to bring traditional individual & team photos, as well as hyped-up media day images, to our studio and your competition locations. For all sport sessions, a minimum of one responsible adult must be present to assist in managing the team while photos are being taken. Sports photos include only minor touch-ups and are **not** edited like premium individual portraits where hair, skin, teeth, and clothing corrections may be included in fees. Traditional photos are generally taken in the setting where the sport occurs (field, mats, gym) and include basic sport equipment and approximately 3 poses per athlete, as well as a team photo and one per group of each graduating class year. Currently, we do not require pre-payment for these sessions, but reserve the right to do so. As such, all images are purchased either as packages or through a la carte pricing once images are emailed out.

Media day images capture the energy & excitement, talent & strength, and personalities on your team. Additional props, dramatic lighting, color accents, and a variety of angles and action bring these images to life and make them pop on socials! Athletes can anticipate a minimum of 3 individual photos, group and team photos being taken. Due to the additional equipment, set-up, and time needed for these sessions, there is a pre-pay session fee required for each athlete participating; the fee is typically split amongst the athletes or covered by a team account/fundraiser. Please note, the per athlete cost decreases as you add more athletes to media day sessions, but maxes out at 15 athletes. For teams with more athletes, an additional package will need to be purchased, although additional set-up fees would be waived for same day events. Our studio will help teams with splitting costs and ensuring the pricing remains fair across the team. Each media day paid participant will receive up to 3 digital images included with their pre-payment with the option to purchase more, as well as print options (note: a signed media release is required to receive the 3rd download complimentary).

Session fee (no additional tax):		Traditional	Media Day
