## **Sales Contract and Health Guarantee**

**Purchase Agreement:** All puppies purchased must be taken to the buyer's veterinarian within the first 72 hours after receiving the puppy. Proof must be provided within 14 days. Guarantee is void if a veterinarian exam is not done in the given time frame unless the seller is aware of the timeline to get into the veterinarian. It is important that you establish a relationship with a good veterinarian right away so therefore your new pet stays happy and is familiar with the veterinarian you choose. It is imperative for your puppy to complete the necessary deworming and other necessary vaccinations needed. The shots given by Cavapoo Acres are just a few in a series and your veterinarian will need to complete them in a timely fashion.

Cavapoo Acres cannot guarantee size, temperament, or color of your puppy. This puppy is guaranteed a 1 year genetic health guarantee. Seller guarantees this puppy is free from "Genetic defects", such as hip dysplasia, deafness, serious eye defect, that would prevent the puppy from being a companion animal. If this puppy is found to have a genetic defect (2 mutated genes) of this kind, this must be verified by a licensed veterinarian. In the case of a hereditary hip deformity, written notification must come to Seller from Orthopedic Foundation of Animals (OFA). In case of a genetic eye deformity, written notification must come to Seller from a Board Certified Veterinary Ophthalmologist. If a "Genetic disorder" is found, the buyer may choose to either , return the puppy to the seller at the buyer's expense and the seller will then replace the puppy with one of the same sex and coat color from the first available litter (puppy to be determined by Seller). If the buyer chooses to keep the puppy no refund will be given. Cavapoo Acres will not be responsible for any medical expenses incurred. This guarantee does not cover accidental injury, viral illnesses, infections, improper bites, stress-related illness, hernias, hypoglycemia, parasites (including Giardia or Coccidiosis), cancer, endocrine disorders, luxating patella, IVDD or CDDY, testicles on males, vaccination deaths, anesthetic deaths, behavior problems, ear mites or ear infections, minor defects (underbite, overbite, umbilical or inguinal hernias or entropion of the eyes).

Cavapoo Acres is selling this puppy as a family companion and in no way guarantees breeding capabilities and is prohibited. We recommend that your puppy be spayed or neutered by your veterinarian at an appropriate age (not before 12 months of age). Cavapoo Acres is not responsible nor liable for this procedure nor any other additional veterinarian bills accumulated after the puppy leaves the residence.

The purchaser agrees that if at any stage in the dog/puppy's life, the buyer needs to re-home the dog/puppy the breeder will be the first to be notified. If the breeder requests the dog to be returned then the buyer must do so or the breeder has the full right to come get the puppy/dog. We do not want our puppies/dogs ending up in shelters. You are always welcome to bring the puppy/dog back to us at any time. Money will not be reimbursed if this is done.
