- We help you eliminate fraud from your finances
- Our goal is to save you money, time and stress!

Problems That VeriAccount Solves Everyday.

1. **Why is an advocate needed? Why would I hire an advocate?**

Advocates can step in for you when it comes to dealing with your bills, appeals, grievances, and complaints. An advocate can help you get more out of your issue solely because they are experienced in solving issues with large institutions.

2. **What are appeals, grievances, complaints and why are they needed?**

Appeals, grievances, and complaints are documents you have the power to file to take control of your situation with an institution. These documents are important to file just in case your situation escalates.

3. **What are the benefits of getting professional financial services?**

Getting professional financial services helps you reduce stress and makes sure that the details of your situation don't get overlooked. Sometimes it's good to hire a specialist who knows the in's and out's of the problem you're trying to solve.
