

"CURIOSITY" IN ACTION

MARCH 2026

This March, we celebrate Curiosity – one of the most powerful forces behind growth, innovation, and connection. Curious people don't just accept the world as it is; they ask why, imagine what could be, and pursue answers with enthusiasm and open minds. Through this month's films, books, and TED Talks, we'll meet individuals whose questions changed everything – and be reminded that the simple act of wondering is where all great things begin.

ELEMENTARY SCHOOL
