PRO-LOK[®]

Soft comfortable handle allows for easy use

NO ELECTRICITY NEEDED

Heavy duty Top Jaw allows for easier and tighter key clamping

Slide the Code Bar to easily change the punching depth

Automatic spacing allows for continuous key punching

Decodes cut depths for rekeying and code cutting to factory specifications and tolerances

Blue Punch Key Machines[™]

PRO-LOK[®]

The Blue Punch™ Key Machine is a dedicated punch machine designed to provide factory original keys. The Blue Punch™ Key Machine creates keys at the speed of a duplicator and is fast, extremely accurate, and easy to use. The Blue Punch™ Key Machine is set up at the factory to provide automatic spacing and depth. An ideal key machine for the system integrator, commercial locksmith, hotels, housing complexes, schools, and other institutions. Fast and easy to use, the Blue Punch™ is a precision machine to the tightest tolerances. Portable, dependable, and hand operated - no electrical outlet needed.

BLUE PUNCH KEY MACHINE™ KEYWAY SPECIFICS

ITEM #	DESCRIPTION	SPECIFIC KEYWAYS
BP201ARFC	ARROW FLEXCORE	• Arrow Flexcore 51, 52, 53, 54, 61, 81, 83, 84 * will cut A3 & A4 w/purchase of code bar
BP201C70	CORBIN C70	• Most Popular Corbin System 70 Keyways 59 Series A1, A2, B1, B2, 60 Series 6 pin
BP201DE	DEXTER / MASTER	• Master Door Locks, All Dexter Cylinder
BP201FW	FALCON / WEISER	• Falcon Standard (Non I/C) - *will Not Cut 8 Or 9 Depths, All Weiser Cylinders
BP201HA	HAGER	• Hager Key Sections H (I.E. H1, H2, H3, H12, H23, H123, etc)
BP201IC	I-CORE	• A2 Standard Interchangeable Core (I/C) - * will cut A3 & A4 w/purchase of code bar • Best, Falcon & Arrow Small Format I/C Key Sections A-R, TA-TE, W Arrow 1A-4D • Exclusions: Arrow Flexcore, Kaba Peaks, Insta-Key
BP201IC-A3	I-CORE A3 SYSTEM	• Interchangeable Core (I/C) A3 System * will cut A2 & A4 w/purchase of code bar
BP201IC-A4	I-CORE A4 SYSTEM	• Interchangeable Core (I/C) A4 System * will cut A2 & A3 w/purchase of code bar
BP201KW	KWIKSET	• Kwikset Standard - *Titan - *Will Not Cut Square 1st Cut, Yale residential
BP201MB	MARSHALL BEST	• Marshall Best Keyways. Call PRO-LOK for keyway verification.
BP201ME07	MEDECO KM - 7°	• Medeco 7° Keyways
BP201ME14	MEDECO KM - 14°	• Medeco 14° Keyways
BP201MEX4	MEDECO KM - X4	• Medeco X4 Keyways. Must be ordered through MEDECO. Contact Medeco directly.
BP201SC	SCHLAGE - CLASSIC	• Schlage Classic (Including I/C) Obverse Key Sections Only C, CE, E, EF, F, FG, G, H, J, K, L (Aftermarket L Blanks Only) • Primus - Same Key Sections As Obverse Except A "P" Has Been Added To Keyway # (ie: CP, CEP, EP, ...Etc.) • Schlage Everest - C Key Sections (I.E. C123, C124, C126, C135, C145..... etc.) (Including I/C) • Everest Primus - Uses Same Names • Everest 29 S Key Sections (S + 3 Digits) • Exclusions: Numbered Key Sections, Quad Key Sections, Reverse Key Sections, Everest-B (B+3 Digits), Everest-D (D+3 Digits)
BP201SCEB	SCHLAGE -SMALL FORMAT	• Schlage Everest - B Key Sections Only - B123, B125, B234, B235, All Other Keys With A B + 3 Digits • Everest 29 R Key Sections (R + 3 Digits) * will cut A3 & A4 w/purchase of code bars
BP201SCED	SCHLAGE - EVEREST D	• Schlage Everest - D Key Sections Only - D120, D123, D124, D134, D135, D145, D234, D235, D245, D345, All Other Keys With a D + 3 Digits • Everest 29 T Key Sections (T + 3 Digits)
BP201SCRV	SCHLAGE - REVERSE	• Schlage Reverse Sections - D,DQ,Q,QS,S,T,U,V,W & Y
BP201WK	WESLOCK	• All Weslock Cylinders
BP201YA	YALE	• Yale KeyMark Key Sections Only - 2A, 2C, 2D, 2E, 2F

BLUE PUNCH KEY MACHINE™ PARTS AND ACCESSORIES

BP-CASE Blue Punch Case

Take your Blue Punch™ almost anywhere with this specialty constructed Blue Punch™ case. The case is designed from rugged hard plastic and includes a sturdy handle to make transportation easier. The inside has a customized area to support your Blue Punch™ machine and a special area for your code bar.

PRO-LOK[®]

Quality Solid Construction

Machined aluminum with hardened bushings

Durable powder coat finish

Easy Backset Changing

Turn backset knobs 180 degrees to positive ball bearing lock. Change the backset from 2-3/8" to 2-3/4" in a instant!

Large comfortable knobs

Eight quality recessed rubber pads help to protect the door finish

2-1/8" hole size

1-1/2" hole size

Easy to Change Hole Sizes

This Jig is unique by easily changing back & forth between 2-1/8" and 1-1/2" holes. Replaceable bushing plates are removed & switched with two screws.

Door thickness adjustment allows you to easily adjust the jig to the thickness of the door. The brass bushing keeps the adjustment knob properly aligned.

Standard Installation Jig

INJIG-KJ Killer Jig Installation Kit

The Killer Jig is made from aircraft-grade machined aluminum that gives a tremendous amount of strength with a light weight and includes hardened bushing and a durable powder coated finish. The large comfortable knobs and door thickness adjustment allows for easy door thickness adjustment. The eight recessed rubber pads are machined into the tool and help protect the finish of the door. Save time with the easy to change backset knob and bore size adaptors. The commercial-grade cutters and markers ensures a professional installation. Includes all items below.

INJIG-100 Heavy Duty Strike Plate Marker

Size: 2-3/4" x 1-1/8" Diameter: 7/8"
Distance b/t screw markers: 2-1/8"

Tool for marking the wood frame for mortising many standard deadbolt strike plates.

INJIG-101 Heavy Duty Latch Marker

Size: 2-1/4" x 1" Diameter: 7/8"
Distance b/t screw markers: 1-5/8"

Tool for marking the wood door for mortising many standard deadbolt and latch face plates.

INJIG-102 Heavy Duty Deadbolt Marker

Size: 2-1/4" x 1-1/8" Diameter: 1"
Distance b/t screw markers: 1-5/8"

Tool for marking the wood door for mortising many commercial deadbolt and latch face plates.

INJIG-103 Heavy Duty Latch Marker

Size: 2-1/4" x 1" Diameter: 1"
Distance b/t screw markers: 1-5/8"

Tool for marking the wood door for mortising many commercial deadbolt and latch face plates.

INJIG-104 Heavy Duty Lip Strike Marker

Size: 2-1/4" x 1-5/8" Diameter: 1"

Tool for marking the wood frame for mortising many standard dead-latch strike plates.

INJIG-108KJ Killer Jig (Jig Only)

Quality solid construction, easy backset changing, easy to change hole sizes, rubber pads to protect the door, large comfortable knobs, easy door thickness adjustment, durable powder coat finish.

INJIG-114 Heavy Duty Carrying Case

Custom molded case with heavy-duty polyurethane interior to protect and store INJIG-KJ tools

INJIG-116 Strike Locator

After the 1" edge bore is drilled, insert the Strike Locator into the hole, close the door, press the Strike Locator toward the frame and the sharp center marks the frame where to drill for property latch or deadbolt alignment.

INJIG-118 1-1/2" Multi-Spur Bit

Commercial-grade spur bit designed to last long and cut more holes. For use on hardware requiring a 1-1/2" cross bore. Designed for use on wood doors.

INJIG-120 2-1/8" Multi-Spur Bit

Commercial-grade spur bit designed to last long and cut more holes. For use on hardware requiring a 2-1/8" cross bore. Designed for use on wood doors.

INJIG-122 Heavy-Duty Auger Bit

Commercial-grade bit used to drill the edge bore for most deadbolts and latches on wood doors. Also designed to drill the hole in wood frames for the deadbolt or latch.

INJIG-124 1-1/2" Bushing Plate

Replacement Bushing Plate, qty 1.

INJIG-126 2-1/8" Bushing Plate

Replacement Bushing Plate, qty 1.

PRO-LOK

- Preps Mortise In Under 5 mins
- For Wood & Aluminum Doors
- Cut Out the Full Lock Body & Face Plate with Ease
- Expandable for Door Coring & Hinge/Strike Prep

Top Clamp and Height Stop

Self-Centering Housing

Shaft with Depth Stop

Bottom Clamp and Lower Stop

Mortise Installation Jig

PRO-LOK®

INJIG-MORT Mortise Jig Installation Kit

Includes the Carrying Case, Aluminum Housing with hardware, 3 cutters (CWB22, CWB25, CWB32), Self Centering Action, Stops, Long Boring Shaft, and Instructions. For doors up to 2-1/8" thickness

DOOR CORING

INJIG-MORT-LDA Door Coring Adaptor

Adaptor for the INJIG-MORT for door coring and installation of electric lock cables through wooden doors from lock to hinge.

Will need a coring cutter (Item # INJIG-MORT-DB3X516 or INJIG-MORT-DB4X516

HINGE AND STRIKE PREP

INJIG-MORT-OMA Offset Mortise Adaptor

Adaptor for the INJIG-MORT for hinge and strike prep. Allows cutting off the hinge recesses and mortise for the strike plate on door frames less than 3-3/4"

Will need a plunger cutter (Item # INJIG-MORT-PD18, INJIG-MORT-PD23, or INJIG-MORT-PD25

INJIG-MORT-SS
Short Boring Shaft
(locks up to 3-1/2")

INJIG-MORT-LS
Long Boring Shaft
(locks up to 6")

INJIG-MORT-CXL
Long Boring Shaft
(locks up to 10-5/8")

THE 5 MINUTE MORTISE Cuts a lock mortise in under 5 minutes!

Both the full lock body and face-plate can be cut out with ease. The mortise hole is automatically centered on the door and accurate results are obtained every time. No other combination of tools can produce such fast and accurate mortise installations.

CUTS A MORTISE INTO WOODEN AND ALUMINUM DOORS

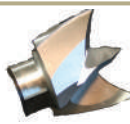

The jig and its precision cutters will cut a mortise in hard wood, soft wood, composite doors and with the use of special cutters, aluminum doors as well, all in under five minutes!

DOORS GREATER THAN 2-1/8" THICKNESS INJIG-MORT-CHKS

Adaptor for the INJIG-MORT for mortise prep for doors greater than 2-1/8" thickness, up to 3-1/8".

PRO-LOK

Installation Templates

PRO-LOK[®]

INSTALLATION SOLUTIONS

The heart of the installation system is the “INCL-PRO: Professional Series Universal Clamp”. All templates are designed to work with the INCL-PRO Professional Series Universal Clamp. Additional templates can be purchased at any time, as needed, to be used with the same clamp. This system makes for fewer tools at a more economical price. These items are milled from solid aluminum with a black anodized finish.

The INCL-PRO is specifically engineered to prep both the inside and outside of the door.

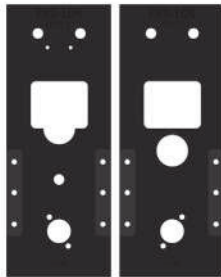

Benefits and Features

- Modular design for fewer tools at a more economical price.
- Features true sized holes to eliminate hole size guessing and ensure accuracy.
- Designed to prep both the inside and outside of the door.
- Features hardened, heat treated steel bushings (where applicable).
- Maintains full contact with the door to reduce installation errors.
- Self-centering
- Ideal for retrofitting

INCL-PRO: Professional Universal Clamp

PRO-LOK®

INCL-PRO: PROFESSIONAL SERIES UNIVERSAL CLAMP

The INCL-PRO: Professional Series Universal Clamp is the cornerstone of the modular PRO-LOK® IN-Series Installation Template system. It is designed to hold both (2) the front and back specialty IN-Series templates at one time, for one easy set-up and lightening fast door prep!

The INCL-PRO holds templates in full contact with the door to reduce the chances of installation errors, damage to the door finish or misalignment.

Easy to use on 1-3/4" wood or metal doors with a 2-3/4" backset or adjustable for other size doors with adapter accessories

Made from lightweight aluminum and featuring three sure-grip knobs

INEXT3-PRO: 3-3/4" BACKSET ADAPTOR

This Adaptor Set is designed to adjust the Professional Universal Clap (INCL-PRO) for proper alignment of an IN-PRO Series template on a door with a 3-3/4" backset.

Made from heavy-duty aluminum.

INEXT5-PRO: 5" BACKSET ADAPTOR

This Adaptor Set is designed to adjust the Professional Universal Clap (INCL-PRO) for proper alignment of an IN-PRO Series template on a door with a 5" backset.

Made from heavy-duty aluminum.

INCLA-PRO: BACKSET/DOOR THICKNESS ADAPTOR

This Adaptor Set is designed to adjust the Professional Universal Clap (INCL-PRO) for proper alignment of an IN-PRO Series on a 1-3/4" door with a 2-3/4" backset to 2-3/8".

Made from heavy-duty aluminum.

IN51: MORTISE ALIGNMENT CENTERING TOOL

The Mortise Alignment Tool is used with the Professional Universal Clap (INCL-PRO) for mortise templates to center the template on a door with a mortise pocket already cut out. Made from heavy-duty aluminum with an anodized finish.

PRO-LOK[®]

QUICK CHANGE[™] LONG REACH TOOL

NO COUPLERS

A coupler is commonly used to screw 2 pieces of tool together to make one longer tool. A coupler needs to be made of a considerably thicker diameter than the material making up the two tool pieces. The Pro-Lok design does not use couplers. One half of the tool screws directly into the other half (without a coupler). This feature allows for a smooth and smaller diameter tool. This is a very important feature because you won't have to wedge the door or window wider to allow room for the coupler.

5 PIECE "USER CHOICE"

Our patent pending tool is unlike any other. Different vehicles and opening methods may require or at the very least are easier to perform with the right shape or designed "tool body". Our 1/4" diameter "handle" provides firm and stiff tool control and attaches to your choice of 3 different "tool bodies" and one longer reach "extension". You simply choose the "tool body" that will best suit the vehicle and opening method that you are performing and screw it directly into the handle. In some instances, if you need longer reach from your tool, the 18" extension screws between the "handle" and the "tool body" to make your long reach tool up to 67" long.

COMPACT

You will look very professional with the best compact case available. Not just for easy storage in your truck or car but also providing a custom place for each tool. No searching for lost tools. No tools all tangled together.

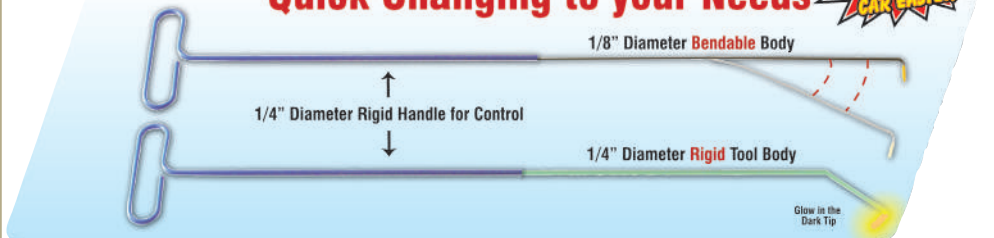

EXTRA LENGTH WHEN NEEDED

Some vehicles require extra length in your long reach tool. Reaching the locking button, reaching the console or across the car is impossible with some tools. The Pro-Lok Quick Change[™] Long Reach tool provides you the best of both worlds. The shorter long reach tool (just the handle and body) is used for most openings. It provides you with better control and use of the tool. When you are faced with a vehicle that requires a little more length, simply screw the 18" "extension" between the "handle" and the "body".

GLOW IN THE DARK TIP

The rubber protective tip on PRO-LOK's 1/4" tool body is made of a specialty formulated glow in the dark material. This feature comes in handy on some openings at night. You can easily see the tip of the tool guiding it inside the vehicle while pushing or pulling the desired unlocking feature.

Quick Changing to your Needs

PRO-LOK®

AKUC: 18 PIECE ULTRA COMBO KIT

The 18 Piece Ultra Combo Car Opening Kit is a mix of the most popular traditional car opening tools strategically fit into the lid of the case as well as an assortment of 5 “Quick Change” Long Reach Tools custom fit into the bottom of the specialty molded case. Simply choose the “Tool Body” that best suits the vehicle opening method. Screw the chosen “Tool Body” directly into the handle for a seamless design. The 1/4” tools body comes with a glow in the dark tip for easy openings at night.

Base includes: 5pc Long Reach Tool • Pump Wedge • 2 Rubber Wedges • 2 Plastic Wedges • Protective Tool Sleeve
Lid includes: Slim Jim • 2 Linkage Tools • Under-the-Window Tool • Wedge Starter • 2 Instructional Booklets

AKUL: 12 PIECE ULTRA LONG REACH KIT

The 12 Piece Ultra Long Reach Car Opening Kit is a mix of the most popular traditional car opening tools strategically fit into the lid of the case as well as an assortment of 5 “Quick Change” Long Reach Tools custom fit into the bottom of the specialty molded case. Simply choose the “Tool Body” that best suits the vehicle opening method. Screw the chosen “Tool Body” directly into the handle for a seamless design. The 1/4” tools body comes with a glow in the dark tip for easy openings at night.

Base includes: 5pc Long Reach Tool • Pump Wedge • 2 Rubber Wedges • 2 Plastic Wedges • Protective Tool Sleeve
Lid includes: 2 Instructional Booklets

PRO-LOK®

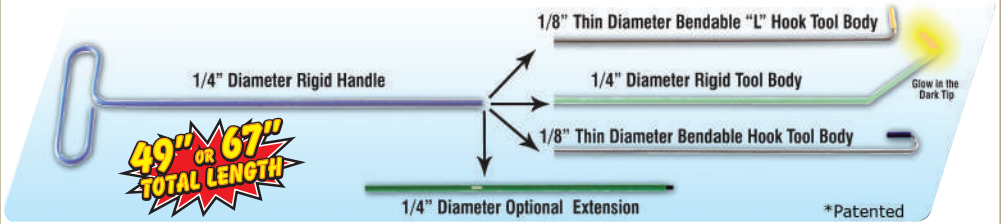

A042-LA: 58" LONG REACH TOOL

The versatile 58" in. Long Arm Car Opening Tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The soft vinyl Bright Glow Yellow Tip allows for easy lock manipulation.

A042-LAXL: 76" LONG REACH TOOL

The versatile 76" in. Long Arm Car Opening Tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The soft vinyl Bright Glow Yellow Tip allows for easy lock manipulation.

A042-QC1: QUICK CHANGE LONG REACH TOOL

The 3 Piece Quick Change Long Reach Tool is designed to unlock many vehicles through the passenger door using wedges and/or door jack type tools. Features a specialty formulated Glow-in-the-Dark tip and 18" in. extension arm which may be mounted between the rigid 'handle' and 'tool body' without using a bulky coupler.

A042-QC2: QUICK CHANGE LONG REACH ACCESSORY

The 2 Piece Quick Change Long Reach Accessory Tools features a thin diameter body which screw directly into the A042-QC1 'handle' or 18" in. extension without the use of a bulky coupler. The thinner material may provide less wedging or stress on the vehicle while still easily bending to pull or push on the desired unlocking feature.

A042SL: LONG REACH TOOL SLEEVE

Use the Long Reach Tool Sleeve to protect the glass, weather stripping, paint, and edge of the door from tools while performing an auto opening. The Long Reach tool is fed through the sleeve to avoid contact with the vehicle

A085: EURO STRIP TOOL

The flexible design allows technicians to bypass doors on foreign and domestic vehicles and attack vertical buttons. Machine cutout with a heavy duty rubber band for extra strength. Full Color Instructions included.

PRO-LOK®

A086: LOCK LIFTER TOOL

Use the Long Reach Tool Sleeve to protect the glass, weather stripping, paint, and edge of the door from tools while performing an auto opening. The Long Reach tool is fed through the sleeve to avoid contact with the vehicle

A068: DOOR GAPPER DUAL TOOL

The double sided Door Gapper Dual Tool makes Auto Entry easy! This tool helps create space between the door and the frame to allow for quick insertion of the Pump Wedge to perform Long Reach Car Openings.

- Door Jack Tool on one end, Wedge on the other
- Easily creates a gap for Long Reach Tool
- Soft rubber bumper for extra protection

A065: PUMP WEDGE

The Pump Wedge is a unique and versatile tool for expanding openings to unlock vehicles. The inflatable wedge made of non-marring ballistic material and has rounded corners for easy entry. Includes a stiff interior for extra strength and easier insertion.

Lifetime Warranty from manufacturer's defect.

Size: 6.25" W x 5.5" L

A065-VXL: XL PUMP WEDGE

The Extra Large Pump Wedge is a larger version of the popular A065 Pump Wedge. Made of non-marring ballistic material and has rounded corners for easy entry. Includes a stiff interior for extra strength and easier insertion.

Size: 9.0" W x 6.93" L

Lifetime Warranty from manufacturer's defect.

AL6000: PROGLO SUCTION LIGHT

The Pro-Glo Hands-Free light uses a suction cup to rest on the exterior of vehicle's windshield, illuminating the desired work area so the entry technician can see to manipulate the interior locking mechanisms. A great accessory to any Long Reach Tool, the Pro-Glo features 6 powerful and uniquely angled LCD lights to throw light on specific area of the vehicle's interior.

PRO-LOK®

A060: DOUBLE SIDED WEDGE

Made of high impact plastic to assist in expanding opening in order to unlocking vehicles. The varying height design on each side (1/2" and 3/4") allows technicians to adjust to doors with varying flexibility.

Full Color Instruction Included

A064: MINI WEDGE DUO

The Mini Duo Orange Wedge with a unique crown makes expanding even tight doors easy. Includes a set of two (2) wedges.

Size: 4.5" x 1" x 1"

Full Color Instruction Included

A061: GRAY RUBBER WEDGE

The Grey Rubber Wedge is made from heavy-duty non-marking high grade rubber to assist in expanding openings in order to unlock vehicles

Size: 4.75" x 2" x 1-3/8"

Full Color Instruction Included

A067: MINI RUBBER WEDGE

The Grey Rubber Wedge is made from heavy-duty non-marking high grade rubber to assist in expanding openings in order to unlock vehicles

Size: 4.75" x 1" x 1-3/8"

Full Color Instruction Included

LT216: STRAMER REMOVER TOOL

The Stramer Remover Tool removes the steering column lock plate retainer ring on GM "Square Column" vehicles.

LT410: CLIP ZIP DOOR PANEL TOOL

This quick and easy to use tool slides down the door frame to remove the panel clips and separate it from the door body without damage to the panel or clip.

LT413: FLAT DOOR PANEL TOOL

This is a "spatula" style door clip remover. The tool slips around the base of the door clip, between the car door panel and the steel door, to carefully pry the door panel clip free from the door.

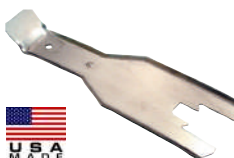

LT450: FACE CAP REMOVAL PLIERS

The versatile Face Cap Removal Pliers safely and easily removes face caps from domestic and foreign auto locks.

LT460: WINDOW CRANK TOOL

The Window Crank Tool slips behind the window crank and removes the spring clip making manual window crank removal easy and risk-free.

LT740: FACE CAP CLINCHER TOOL

The Face Cap Clincher Tool quickly and easily crimps the tabs on replacement auto lock caps of foreign and domestic vehicles.

PRO-LOK®

A001: SLIDE LOCK TOOL

Actually two (2) tools in one. The Slide Lock tool opens foreign and domestic vehicles with both horizontal locking devices and vertical buttons.

A014: WINDOW VENT SET

The 2 pc Vent Window Set allows you to vent windows on cars, trucks, and van doors.

A027: HANDLE OPENER TOOL

Designed to access and manipulate pull handles on vehicles that have stiffer handle springs such as certain BMW, Mercedes and Land Rovers.

A031: BUTTON LIFTER TOOL

Designed to reach under windows to unlock vehicles with raised vertical buttons. Simply remove the protective cap and use the precision ground tip.

A034: NARROW TOOL

The Narrow tool is designed to go under the window and inside the car to unlock the door.

A036: LONG TOOL

Designed to stretch under the window of a variety of vehicle types for hard to reach activators.

VIEW ALL TOOL OPTIONS

ONLINE AT **PRO-LOK.com**

A024: HANDLE OPENER TOOL

Designed to access and manipulate closed pull handles on vehicles that have stiff handle springs or which require higher pull strength.

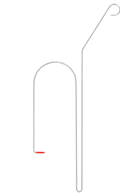

A028: FAT TOOL

The Fat Multi-Car Opening Tool is designed to bypass window regulators that run the length of the window glass.

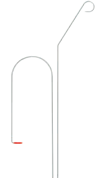

A032: WIDE EXTRA LONG TOOL

Designed to have a wide reach and extra long length for use on multiple cars with locking mechanisms that were just out of your reach.

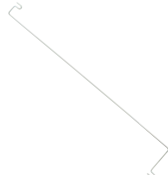

A035: WIDE TOOL

The Wide Tool is designed to access a variety of vehicle types with wide door panels.

A039: DOUBLE SLIDE TOOL

The Double Slide Tool is a multi-functional tool with a short reach for narrow doors and a reverse tip for reaching under horizontal linkage.

VIEW ALL

PRO-LOK.com

A045: LOOP-D-LOOP TOOL

Fed in under the window, the 'loop' is fixed around the straight or mushroom style button head and pulled tight, then lifted up to unlock. The heavy duty coated wire is securely crimped.

A095: TOOL USAGE INSTRUCTION

The 52 page Tool Usage and Instruction Booklet is a great resource for understanding different auto locking systems and how to use our tools for car openings. Keep on hand for most car opening situations.

A010: THE ORIGINAL SLIM JIM

The Original Slim Jim is still the best for opening cars. The Slim Jim design unlocks a variety of foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 3/4" x 22 1/2" x .032" thick.

A011: SUPER SLIM JIM

The Super Slim Jim is wider and thicker than the Original Slim Jim. Designed to unlock many foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 1 1/4 x 25" x .032" thick.

A025: EZ SLIM JIM

The E-Z Jim is a medium thickness Slim Jim designed to unlock a wide variety of foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 1" x 25" x .042" thick.

A030: EXTRA LONG SLIM JIM

The 30" in. Extra Long Slim Jim is like the Original Slim Jim, but designed to reach even the deepest linkage. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 3/4" x 29 1/2" x .032" thick.

Make your own key tags that go behind the hooks on your keyboard. 3 fluorescent colors: pink, orange, and yellow to help find popular blanks. Set contains 96 blank tags.

PRO-LOK[®]

LT300

KeyCheck™ Key Blank ID

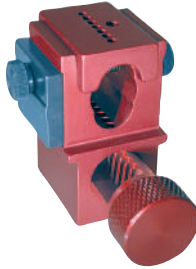

An Ideal tool to train on key blank identification. Forms & holds the keyway on any sample key and allows you to match the right blank every time.

LT340

IC Rekey / Decode / Dump Tool

Several tools in one. Clear chambers and decode. Chamber cap and retainer sleeve staking feature. Holds the key cylinder and provides a place to dump the pins for decoding or disposal. Also acts as a holding fixture for rekeying.

LT341

IC Rekeying Ejector Pin

LT342

IC Rekeying Staking Tool

LT350

Single Plug Holder

The single plug holder will accommodate all Schlage full size plugs, including Primus plugs with side bars. The holder has 2 grooves for the side bar in Primus plugs, so any plug may be inserted from either end of the holder. Making it easy to insert pins into plug.

LT350-12

Multiple Plug Holder

Will accommodate up to 12 plugs with sidebars.

LT470 8 pc Tool Set in Case

Heat-treated, chrome-plated tools vanadium steel shafts with magnetic tips and high visibility handles.

Includes curved hook, offset 45° hook, 90° hook, straight pick, 1/8" flat driver, #0 Phillips driver, SD-15 star driver, SD-20 star driver.

LT500 Rhodes Nut Tool

Aluminum tool replaces plastic nut driver that comes with the Rhodes locks. Durable and easy to handle. Ideal for high volume retrofit jobs. Saves valuable time.

LT605 The DiskBuster™

Clamps onto most brands of disk/circular type padlocks and automatically centers the shear line for quick drilling. Prevents the possibility of drilling your hand.

LT9505 Fire Cabinet Lock

Self contained trip lever cylinder lock assembly fits glass fire cabinet doors. Keyed alike to LL24.

PRO-LOK®

LT1202 Lock & Safe Scope

Provides a strong beam of light for safe work or reading wafers. Made of impact-resistant plastic and includes three (3) magnification tips, carrying case, batteries and bulb.

LT1202B Bulb

Replacement bulb for LT1202

LT370 Master Pin Follower

A versatile tool to be used for removal of upper chamber master pins (up to .100) with a quick twist. May also be used for standard rekeying tasks.

Made from machined aluminum to exacting tolerances with an anodized finish.

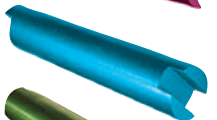

LT371 4 Piece Follower Set

Includes LT371-395, LT371-495, LT371-500, LT371-555

LT371-395 .395 Diameter
For removal of most small pin tumblers.

LT371-495 .495 Diameter
Standard follower with two different end configurations.

LT371-500 .500 Diameter
For standard rim cylinders. 2 different end configurations

LT371-555 .555 Diameter
Standard follower with two different end configurations.

LT700 Standard Impressioning Tool

Ideal for pin tumbler and wafer locks using a true center-line action. Easy-to-grip handle fits hands comfortably, securely holds the head of the key.

LT1202 Headspecs

1.8x, 2.3x, 3.7x, and 4.8x magnification glasses with dual light sources and head harness with 2 lights. Ideal for detail work, close observations, precise inspections, and more!

(2) AAA batteries per light.
(Batteries not included)

LT374 Pin Tweezers

Ideal for pinning locks. Designed with a special notch to hold the pin.

LT430 Service Call Dispatch Book

Makes it easy to track service calls for dispatch and billing.

The book features 200 individually numbered tickets with 3-copy NCR paper allowing one copy to dispatcher, one to service technician, and retain a permanent copy in the book for easy record keeping.

LT705 Tubular Impressioning Tool

Aluminum impressioning tool for 7-pin center tubular locks. Made from corrosion resistant aluminum alloy with an anodized finish.

Use with the Tubular Impressioning File (LT705F).

LT705F

LT800 Door Latch Opening Shim Set

Set of 5 door latch shims makes it easy to open the door. Strong and flexible material with rounded corners makes it easy to reach and manipulate the latch
