IMPACTFUL INITIATIVES

Our keys are manufactured using solely renewable energy sources and 100% recycled materials. By managing our own supply of brass and nickel silver, we minimize transportation emissions and reduce our carbon footprint. In addition to sourcing local materials, we are at the forefront of developing lead-free products to minimize their environmental impact.

Our environmental management system is [ISO 14001:2015](#) certified, and our occupational health and safety system complies with [ISO 45001:2018](#) standards.

GESTOS QUE MARCAN LA DIFERENCIA

Nuestras llaves se fabrican utilizando únicamente energía de fuentes renovables y materiales 100% reciclados. Gracias a que gestionamos nuestra propia fuente de suministro de latón y alpaca, limitamos las emisiones del transporte, reduciendo nuestra huella de carbono. Además de utilizar materiales Km 0, también estamos a la vanguardia del desarrollo de productos sin plomo con el objetivo de reducir su uso en la producción de llaves y minimizar su impacto medioambiental.

Nuestro sistema de gestión medioambiental cuenta con la certificación [ISO 14001:2015](#), y nuestro sistema de salud y seguridad en el trabajo, con la [ISO 45001:2018](#).
