About Us

SUPPORTING ENTERPRISES

e-gain is a student obsessed institute and an endeavor which had been in mind for nine long years. Recently, it has been moulded and given a new structure to be of total help to students.

e-gain is a platform nurtured by highly qualified professionals who are in link with the industry for years, gaining vast amount of knowledge and experience.

Our teaching staff mainly comprises of expert professionals like IT Infrastructure Architect, Application Project Managers, Senior Analysts, Senior Business Intelligence consultant, Senior Big Data consultants rather than mere faculties. They are attached with the production environment, rendering their expertise and skills.

At *e-gain*, we know that skilling is the future of training, and that validated hands-on experiences and challenge-centric learning are transforming the way enterprises are upskilling their customers, partners and employees.

Our primary vision is to impart real education and build professionals who can shine with excellence. With this vision, *e-gain* is winning the hearts of many students who consider *e-gain* teachers as their private tutors.

"Education is the most powerful weapon which you can use to change the world."

~ Nelson Mandela

OUR ALUMNI BACKGROUND

MARKET TRENDS

WHAT OUR STUDENTS SAY

Knowledge is power and learning the only way to acquire it. In modern times online training is the most efficient and convenient way of learning when it comes to any technical training especially in Information Technology. If you are in this industry, then you must enroll in e-gain. Because it is not an online training institute only. Apart from giving online training with hands-on it prepares a student to appear for certification examinations and interviews. e-gain also shares information on latest trends, best practices, new technologies - with all, on open forum basis. Once enrolled in e-gain, one will not only get training but a guidance throughout the journey in Information Technology. e-gain offers training on most popular and upcoming technologies, both. The trainers are from reputed organizations with deep knowledge and vast experience.

After a stint of 17 years in IT Infrastructure and Project Management, I was looking for new learning and exploring AWS, came in touch with many, but e-gain showed a different angle of exploring AWS, consistently e-gain kept on proving why they are different one. Not only theoretical approach, more focus on practical work and ready to accept new questions and came out with solutions each and every time. It's a class, where it gives a feeling of traditional Gurukul system, where not only one sided lecture are given (like most of the institute), here QA session is a regular phenomenon. Assignments are given and honest evaluation takes place. Wish all the best e-gain.

WHAT OUR STUDENTS SAY

I can say this with utmost confidence that e-gain is one of the best training resources out there in today's online teaching world. e-gain is a thorough professional team and teaches you to connect the theory of Technology with the practical aspects. They are not only spark the interest about the topics but also encourages you to ask questions, these questions lead you to more questions and you really start to grasp the core of the subject that you are trying to Master. I have nothing but great things to say about e-gain, learning with e-gain is one of the great decisions I took in my online learning pursuits, hands down !!
