Govt. of India Accredited Institute

ABOUT US

Nelson Mandela, "Education is the most powerful weapon which you can use to change the world."

e-gain is an endeavor which had been in mind for nine long years. In the recent past only it has been moulded to give it a new structure.

e-gain is a platform nurtured by highly qualified professionals who have been linked with the industry for years gaining vast experience. Our teaching staff mainly comprises of expert professionals like IT Infrastructure Architect, Application Project Managers, Senior Analysts, Senior Business Intelligence consultant, Senior Big Data consultants rather than just mere faculties. They are attached with the production environment rendering their expertise and skills. Our primary vision is to impart real education and build professionals who can shine with excellence while charging a very nominal amount for survival.

With this vision e-gain is winning the hearts of many students who have begun to consider the e-gain teachers as their private tutors. To facilitate this and keep the passion going we have introduced Reach My Teacher tab where students can get access to their respective teachers to solve problem and queries even after post training.

NO POINT

of being an **average student**

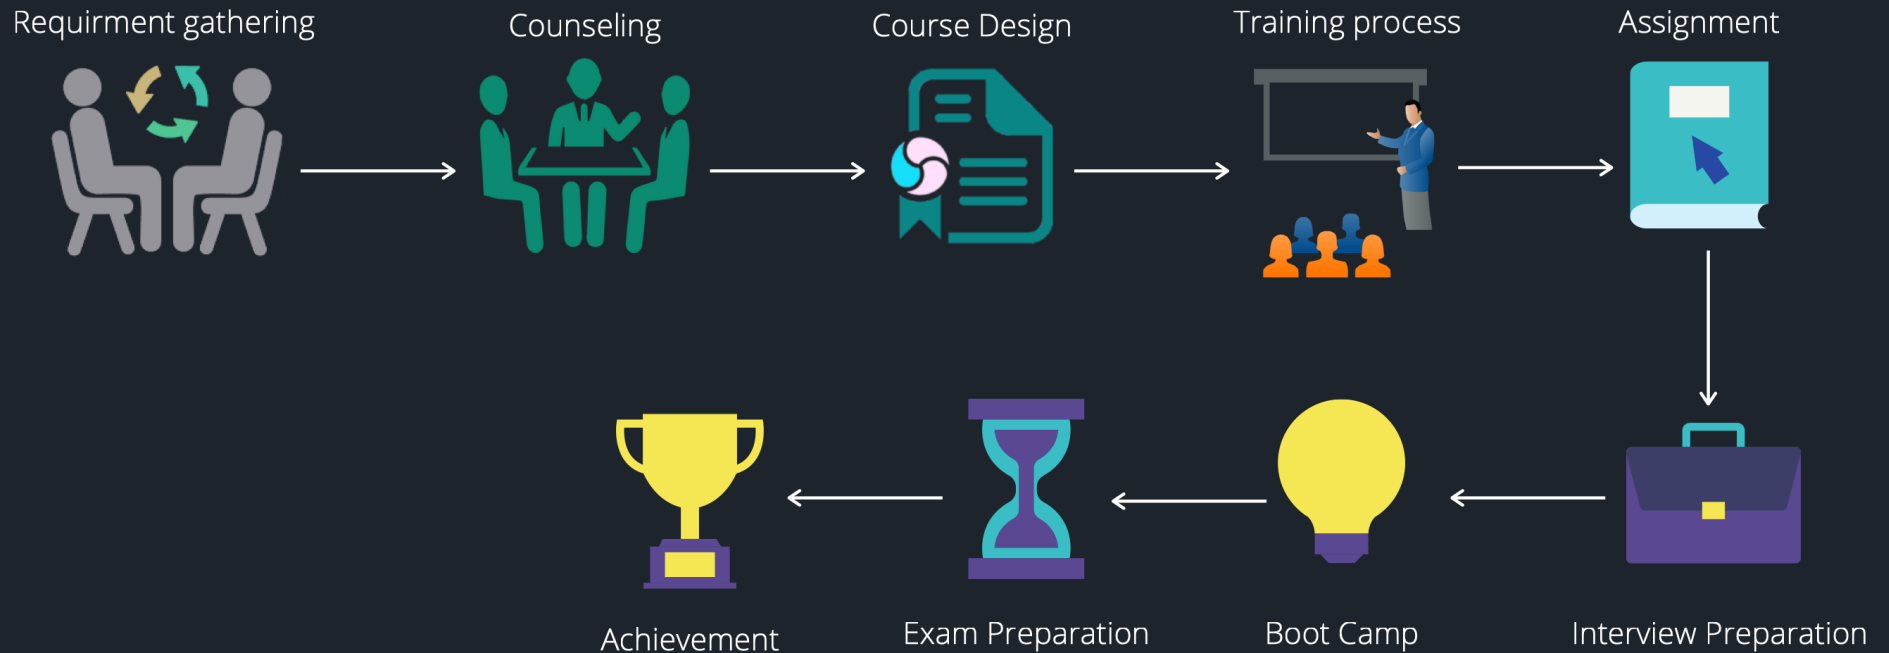

Be DIFFERENT @ e-gain

OUR APPROACH

every student comes up with own objective to learn...

OUR INSTRUCTORS

- [Senior Cloud Architect]

WHAT OUR STUDENTS SAY

Develops a culture of continuous performance improvement @e-gain can be a powerful trigger for change. Awesome teachers with astounding knowledge.

LNDRAKHEE BARUA

IBM

Knowledge is power and learning the only way to acquire it. In modern times online training is the most efficient and convenient way of learning when it comes to any technical training especially in Information Technology. If you are in this industry, then you must enroll in e-Gain. Because it is not an online training institute only. Apart from giving online training with hands-on it prepares a student to appear for certification examinations and interviews. e-Gain also shares information on latest trends, best practices, new technologies – with all, on open forum basis. Once enrolled in e-Gain, one will not only get training but a guidance throughout the journey in Information Technology.

e-Gain offers training on most popular and upcoming technologies, both. The trainers are from reputed organizations with deep knowledge and vast experience.

SATYABRATA SUR

TECHMAHINDRA | INDIA

A word of gratitude to e-gain's training team. I had an amazing experience training with e-gain, the trainers are highly skilled, professional, helpful and supportive. Thank you e-gain for helping me reach new heights. "A good coach can change a game, A great coach can change a life". You've changed my life e-gain, thank you.

INDEPENDENT ITSM CHANGE MANAGEMENT CONSULTANT, JOHANNESBURG

WHAT OUR STUDENTS SAY

I can say this with utmost confidence that e-gain is one of the best training resources out there in today's online teaching world. Debajit Chandra is a thorough professional and teaches you to connect the theory of Technology with the practical aspects. He not only sparks the interest about the topics but also encourages you to ask questions, these questions lead you to more questions and you really start to grasp the core of the subject that you are trying to Master. I have nothing but great things to say about e-Gain and Debajit, learning with e-gain is one of the great decisions I took in my online learning pursuits, hands down !!

ATIF RATHER
CPP INVESTMENT | CANADA

After a stint of 17 years in IT Infrastructure and Project Management , I was looking for new learning and exploring AWS, came in touch with many , but Debajit@e-gain showed a different angle of exploring AWS, consistently he kept on proving why he is different one. Not only theoretical approach, more focus on practical work and ready to accept new questions and came out with solutions each and every time. It's a class, where it gives a feeling of traditional Gurukul system, where not only one sided lecture are given(like most of the institute), here QA session is a regular phenomenon. Assignments are given and honest evaluation takes place. Wish all the best e-gain.

WHAT OUR STUDENTS SAY

I am Aamir Rehman working with a Vodafone-Idea having 12+ years of experience in telecom. I am eager to upgrade my technical skills in the field of cloud technology then I came to know about e-gain and enrolled myself for AWS Solution Architect under Debajit da. Really he's not only a good instructor but a wonderful mentor and under his guidance I able to crack and achieve AWS solution architect certification in one go.

Also e-gain is really a different platform which help in conducting live projects and basis on new technology updates they time to time give detailed sessions on latest topic which help to understand real production world scenarios.

Thanks to my mentor and e-gain for making me certified AWS solution Architect and gaining the in depth knowledge about the same.

AAMIR REHMAN
VODAFONE IDEA | INDIA

Hey this Dipanjan today I am giving a big thanks to e-gain and team specially Debjit da and Satya sir... today whatever very little knowledge I have gained this all happened as because of these two people.. I have undergone very tough time where I was standing on the edge where I was left every piece of hope but one thing I have always in my mind I never learnt to bent down. I always ready to accept the adversities, this all things are possible just because of Debjit da and Satyabrata Sir , thanks for your support I always thankful to these people... long live e-gain..
