EXECUTIVE PRESENTATION BY

WILLIAM JOHNSTON

“Can’t Edit Pressure” -William Johnston

Who is T.S.Uncut?

Not next up. Next level.

T.S.Uncut represents the kind of artist who doesn't wait for a moment — he becomes one.

Blending refinement with raw intensity, his sound carries both discipline and edge. Every record is intentional. Every lyric feels sharpened. There is elegance in the structure and grit in the delivery — a balance that translates across cities, cultures, and stages worldwide.

He isn't chasing relevance. He's building permanence.

Where others rely on volume, *T.S.Uncut* relies on presence. Controlled. Composed. Commanding. The type of performer who understands dynamics — when to electrify a room and when to hold it in complete silence.

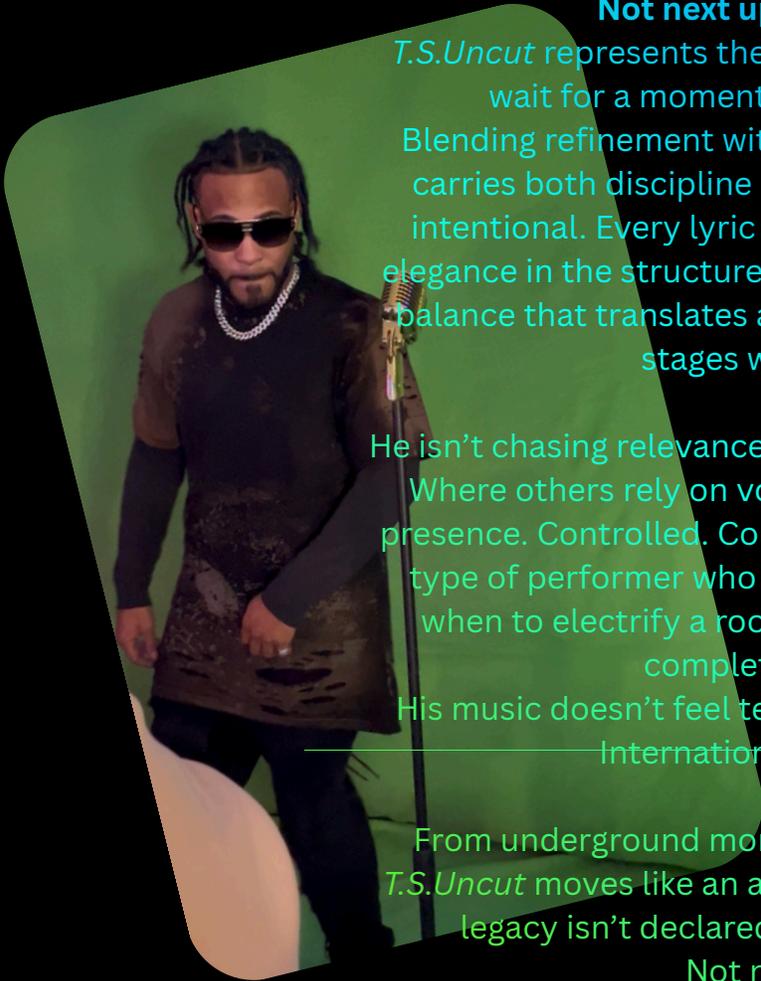

His music doesn't feel temporary. It feels scalable.

International. Timeless.

From underground momentum to global stages, *T.S.Uncut* moves like an artist who understands that legacy isn't declared — it's demonstrated.

Not next up.

Next level.
