YOUR NEW  
FAVOURITE PARTY

Thank you for your interest in our Kids recording parties. Besides providing fun and very unique birthday experiences, we aim to make our events as effortless for you as possible so you can just sit back, relax and enjoy it on the day as we entertain, produce and create your kids masterpiece just like the pop stars do in one of our professional sound recording studios.

Our Kids parties are for up to 12 participants, but additional singers can be added for an additional £15 per participant.

Studio Stars is a lot of fun and we endeavour to get the very best we can from all the participants so they have something that's worth listening to and enjoying for years to come. Technically, It's not just a case of all standing around one microphone and singing as you may think, it's a bit more involved and so it's really helpful for the participants to really know the song.

It will help us get through the song nice and smoothly if everyone is familiar enough with the song to help us get a great finished product.

Before your recording session we will send out the backing tracks for our singers to get familiar with. We'll also send out a copy of the song's lyrics to share with party-goers, feel free to share these on your social media. 😊

## Song Choices

Choose a song that has a good strong singalong chorus.

And please be aware of the lyrical content of the chosen song in case any content is risqué or contains innuendo.

For their song it's helpful when they each have a line or two of a verse to sing solo (or in pairs for the less confident) and then everyone joins in for the choruses. If the singers know who sings what beforehand it makes for a great recording and helps them take ownership of the performance and it also helps boost confidence as once they're in the booth it can be a little bit more intimidating than anticipated.

## Arrive on Time

Please ensure everyone arrives by the start time (but no more than 10 minutes before your allocated session start time as we'll be sound checking and testing all the equipment). It's often not possible for us to run over your allocated time slot so it's important that we're ready to start promptly.

## Food and Drink

Feel free to bring sandwiches/nibbles/cake/drinks, balloons, candles and a cake (don't forget the lighter!)

We have an area where you lay out food and you will have some time while the producer is mixing the song for everyone to have a bite to eat and cut the cake.

## Photos

You're welcome to take plenty of pics around the studio and if you're sharing on social media, don't forget to tag us.

## Dress Code

Get dressed up! As you're a pop star for the day you should look the part! And some props will always look great in photos, but may be a hindrance in the recording booth.

## The Boring Stuff

Your party-goers will be in a professional, commercial sound recording studio which isn't set up like a soft-play area or a fake recording studio with cheap equipment created to specifically cater for kid's parties. We are the real deal and makes it much more exciting for all participants.

With that in mind we politely ask that you to remember there won't be ball-pools, slides or balloons everywhere (but you are more than welcome to bring some!) and the equipment we use is professional and very expensive but unfortunately not child proof.

At least one accompanying adult must be present throughout the entire recording session. It's useful if there's 2-3 present just to keep everyone in check as we have some very expensive equipment around and understandably everyone will be very excited. Pets are not permitted at the studio. Any equipment damaged due to negligence will be chargeable to the party organiser so be sure to keep the kids in check! We brief all participants before we start the session with all the housekeeping.
