Career Objectives

I seek collaboration with training experts and professionals to produce cutting-edge instruction. I aim to apply my visual communication expertise while working with innovative teams. Constantly pursuing new creative endeavors, I leverage advancements in software and education to develop dynamic learning environments. Additionally, I am eager to travel for content capture and to attend conferences where I can present, learn, and further my professional development.

Skills

- Course creation and delivery on learning management systems.
- Teaching technological literacy and developing instructional tutorials.
- Designing supplemental materials for online learning environments.
- Developing and overseeing engaging learning environments.
- Training colleagues and facilitating collaborative learning.
- Graphic design with expertise in branding, marketing, and apparel.

Professional Experience

Senior Instructional Designer & Media Specialist

September 2023 – Current D+R International Fully Remote

- Developing engaging educational content, including virtual interactive tours, instructional videos, diagrams, and flowcharts.
- Collaborating with subject matter experts to create comprehensive instructional materials for online and instructor-led courses.
- Leading professional development seminars and training sessions at energy efficiency conferences and HVAC conventions.
- Designing and implementing multimedia learning experiences for energy efficiency and electrification training programs.

AP Studio Art Teacher & PLC Leader

June 2021 – August 2023 Wekiva High School Apopka, FL

- Developed curriculum for online and distance learning.
- Designed dynamic assessments to evaluate student knowledge.
- Led initiatives for our professional learning communities (PLCs).
- Created training materials for new teacher technology and software.

Digital Design Teacher & Technology Trainer

July 2014 - June 2021 Orange County Public Schools Orlando, FL

- Developed lessons using objective-focused planning.
- Trained students in industry-standard software and digital tools.
- Developed performance standards that assess learning growth.
- Adapted instruction to improve learning outcomes and retention.
