

IMHPP Proposal Template

Title:

[Insert Title of Research Proposal]

1. Introduction

Provide background information and context for the research. Explain the significance of the study and the problem it addresses.

2. Research Questions/Objectives

- [State primary research question(s)]
- [List specific objectives or hypotheses]

3. Literature Review

Summarise key literature relevant to the research topic. Highlight gaps your research aims to fill.

4. Methodology

- **Research Design:** [e.g., qualitative, quantitative, mixed methods]
- **Data Collection Methods:** [e.g., surveys, interviews, experiments]
- **Data Analysis:** [Describe analytical approach]
- **Sampling:** [Describe population/sample and sampling technique]
- **Ethical Considerations:** [Outline ethical issues and how they will be addressed]

5. Expected Outcomes

Discuss potential findings and their implications.

6. Timeline

Activity	Timeline
[Activity 1]	[Date/Duration]
[Activity 2]	[Date/Duration]
...	...

7. Budget

Provide a breakdown of estimated costs.

8. References

[List references cited in the proposal]

9. Appendices (if any)

[Include questionnaires, data collection tools, etc.]
