

# SALES OF CAMPUS PRIDE DOMAIN ASSETS TOTALING \$124,001

The whistleblower complaint references the reported sale of certain Campus Pride domain assets by the Board of Directors, including CampusPrideIndex.org in January 2026 and CampusPride.org in March 2026, and raises concerns surrounding the disposition of funds following reports that the organization has ceased operations.

Based on publicly available information, no final IRS Form 990 filing or public accounting reflecting the reported proceeds has been identified to date. The reported transactions — totaling approximately \$124,001 — and the corresponding financial accounting have not been clearly documented or publicly clarified by the Board of Directors based on information currently available.

Supporting receipts reflecting reported GoDaddy sales amounts and transaction dates are included here for reference.
