

EP 02 | TURN ASIDE | CTRLALTDEL | HLAV.ORG

Theme: Awareness creates encounter. When you turn aside—when you see what’s already been glowing in the corner of your life—you shift from autopilot to purpose.

Scripture

Exodus 3:4

Big Idea

It wasn’t the fire that was new—it was the moment he noticed. Purpose doesn’t appear overnight; you finally notice it. Life doesn’t move too fast—we just live it unfocused.

Teaching Snapshot

Like driving past the same building for months before finally seeing it, awareness doesn’t make something new—it lets you see what’s been in process all along.

When Moses turned aside, heaven turned toward him.

The Hebrew *sûr* means to step off the road you’re on. It’s the pause that shifts your direction without canceling your calling.

Divine intersections happen where awareness meets obedience—when the sacred sneaks into your schedule and the eternal interrupts your everyday.

Reflection

1. What’s been “under construction” in your life that you’re only now seeing clearly?
2. Where is G-d asking you to step off your route and look closer?
3. How could awareness change the way you move through ordinary spaces?

Practice

Do one small act of awareness that costs you focus: Listen fully to a friend - See a need and meet it quietly - Pause to thank someone you normally overlook.

Prayer

Lord, clean my heart. Renew my spirit. Restore my vision
