## SUMMARY

LightGrow's Career Solutions programs empower professionals at every stage to unlock their full potential. Through scientific assessments, personalised mentorship, and industry-specific guidance, we help you make informed career decisions with clarity and confidence. Whether you're preparing for a transition, seeking direction, or ready to engage with industry leaders, our solutions provide the structure and support to help you achieve your goals.

## PROGRAMS

### Career Solutions Basic

Understand your strengths, capabilities, and career potential through a scientifically validated career assessment. This in-depth evaluation measures cognitive abilities, leadership traits, and occupational interests providing a data-driven foundation for your next career step.

### Career Solutions Light

For professionals seeking direction, this programme helps you explore career options, align strengths with opportunities, and develop a Career Master Plan for accelerated growth.

### Career Solutions Pro (*Limited availability; no guarantees*)

Designed for executives making a major career move. Gain exclusive networking opportunities, strategic career insights, and direct introductions to decision-makers in your industry.

## HOW IT WORKS

It starts with the assessment centre providing deep insights into your strengths and career potential. Then, we work with you to develop a tailored career strategy, combining expert guidance, industry insights, and personalised mentorship. For senior professionals, we offer targeted networking opportunities to connect with key decision-makers.

## STAY CONNECTED

Follow us for insights on career growth, leadership hiring, and industry trends.
