OUR COMPANY

Minamikaze Energy Inc. (South-Wind Trade Inc.), started activities since December of 2006, is a wholly owned subsidiary by Minamikaze Corporación, C.A., ever since founded back in July of 1994, has established its core activities in three (3) main areas of business:

1. Fossil Fuels & Energy, and Alternative Energies (Coal, Petroleum and Refined products, and Solar Energy, among others).
2. Metallurgical and Minerals (Bauxite, Aluminum, HBI, Iron Ore, Petcoke, Cement, Slags, among other related hard and Soft Commodities).
3. Food & Beverages, with special emphasis in mineral-natural waters from volcanic regions in Japan.

1. Corporate Identity & Overview

Minamikaze Energy Inc. operates as a specialized **Marketing Outsourcing** service provider, executing critical tasks across Project Management, Technology, and Trading within key sectors of the global economy.

- **Market Identification & Due Diligence:** Rigorous market analysis to establish long-term commitments between verified producers and end-users.
- **Technical-Commercial Tooling:** End-to-end expertise spanning logistics, trade execution, and tailored commercial frameworks for buyers, sellers, and institutional investors.

2. Core Service Lines

Minamikaze Energy Inc. structures long-term trade and marketing operations in primary global commodity categories:

- **Fossil Fuels & Hydrocarbons:** Crude oil, refined products, bitumen, and fuel oils.
- **Ferrous & Non-Ferrous Metals:** Primary metals and secondary production feedstocks.
- **Strategic & Critical Minerals:** Extracted mineral commodities essential for high-tech and industrial supply chains.
- **Recycling & Industrial Raw Materials:** Furnace-ready cullet and alternative energy binders.
- **Soft & Hard Commodities:** Agricultural goods and industrial chemical minerals.

3. Product Portfolio (Categorized Directory)

Minamikaze Energy Inc.'s commercial offerings are organized across four main operational divisions:

I. Energy (Fossil Energy and Mining)

- **Hydrocarbons & Liquids:** Crude oil, LNG, Jet fuel, Fuel oil, Bunker fuel.
- **Solid Fuels & By-products:** Bitumen, Petcock, Thermal coal, Coal.
- **Logistics Equipment:** ISO tanks for liquid chemical and fuel transport.

II. Basic (Raw) Materials

- **Secondary Raw Materials:** Glass cullet.
- **Ores & Minerals:** Iron ore, Bauxite, Limestone, Silica sand, Clinker.
- **Industrial Additives & Alloys:** Phosphor copper, Ground Granulated Blast-furnace Slag (GGBS), Manganese, Ferromanganese, Thermal coal.

Glass cullet (secondary raw material)

III. Industrial Goods

- **Alternative Energy & Binders:** Alternative energy fuels, Bitu-HM.
- **Recycled Glass Varieties:** Glass cullet (amber, green, flint), Float glass.
- **Derived Materials:** Tire-Derived Fuel (TDF), Tire Steel Wire Scrap (TWS).

Tire-derived fuel (TDF)

IV. Consumer Goods

- **Processing Facilities:** Food processing facilities.
- **Food & Agriculture:** Fresh and branded food, Canned food, Dairy food, Organic bulk and soft commodities.
- **Water & Salt:** Natural mineral water, Food & Animal block salt.

Natural & Mineral Water

4. Strategic Minerals & Critical Metals (Technical Specifications)

Antimony (Sb)

- **Purity:** Minimum secured 99.65% Sb.
- **Available Forms:** Antimony ingots, Sb fines, Al pucks, and Sb cones.

Ferro Silicon (FeSi)

- **Standard Grade:** Si 75% min | C 0.2% max | P 0.05% max | S 0.02% max (Size: 10~50mm, 90% min).
- **High Purity Grade:** Si 75% min | C 0.2% max | P 0.05% max | S 0.02% max | Ti 0.055% max | Ca 0.06% max | Al 0.1% max.
- **Powder Type:** Si 73% min | C 0.5% max | Al 1.5% max (Size: 0.1~1mm).
- **Fine Type:** Si 30% min | C 0.5% max (Size: 3~8mm).

SM94 High-Silicon Alloy

- **Purpose:** Cost-effective alternative to FeSi 75 in electrical steel production.
- **Silicon Content:** >94% Si.
- **Purity Control:** Controlled Boron (B), Phosphorus ($P \leq 0.03\%$), and Titanium (Ti).
- **Key Advantages:** Superior deoxidation performance and lower carbon deoxidizer consumption.

5. Strategic Alliances

- **SIMZONE (Steel & Iron Material Zone) Korea:** Manufacturers and distributors of new raw materials for the iron and steel industries.

- **HOME OF RAW — Netherlands:** Innovation leaders in alternative fuels, cement, asphalt, and roofing felt binders.

ABOUT US
