

Minamikaze Energy Inc.

A Marketing Outsourcing Company

Minamikaze

The Spiritual Road to Prosperity

Minamikaze

The Spiritual Road to Prosperity

We are a marketing outsourcing where we identify/ensure, under the process of researching the potential market, buyers and/or end users. We develop a business strategy once the research is finished, with methods of long-term business projection. We propose commercial strategy based on terms of operability & logistics that are optimal and productive for the wrapped parties.

We put emphasis and control over the value chain on the products we manage to achieve the highest operational efficiency.

We focus our operations and involvement on these three chronological business sectors for the Market:

- Upstream
- Midstream
- Downstream

At this last step of the value chain, we serve the appropriate logistics for our customers to maximize profitability, minimize the risk and create valuable propositions for them.

Finally, we provide technical and commercial know-how and expertise in Marketing Outsourcing, trading, and consulting for an array of applications in diverse sectors - - on several feed stock raw materials, Food – hard & soft commodities, among other, - - in tailor made commercial structures for buyers, sellers, and investors.

Energy (Fossil Energy and Mining)

Crude Oil

Iso tanks

LNG

Thermal coal

Coal

Bunker fuel

Jetfuel

Bitumen

Petcoke

Fuel oil

Basic (Raw) Materials

Amber cullet

Green cullet

Limestone

Direct reduced iron (DRI)

Bauxite

Iron ore

Silica sand

Clinker

Phosphor copper

Ground granulated blast-furnace slag (GGBS)

Industrial Goods

Alternative energy fuel

Bitu-RM

Flint glass cullet

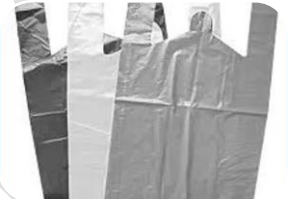

Tire-derived fuel TDF)

Tire Steel Wire Scrap (TDS)

Float glass

PP/PE and other plastic materials (waste & product)

Carpet Waste (in bales)

LDPE Stretch Film Roll

Eggs trays

Consumer Goods

Food processing facilities

Dairy products

Canned food

Organic bulk and soft commodities

Salt and Sugar (diverse types for several industries and use)

French fries

Natural and mineral water

Sunflower oil

High calorific alternative energy + binding solutions

Bitucokes

Bitucoke

Product approved by the European community (EC) as a constituent material used in the production of asphalt, also, as fuel in power generation plants and cement industries.

BituCoke (Bitu RM) is an autonomous material, but it can also be blended/mixed with other primary fuels and/or other alternative fuels to improve its efficiency as an alternative fuel used in cement plant kilns operating systems and power generation facilities.

Cheaper production costs

Major benefit from a reduction of CO2 emissions

Exported as a European patented product under the **HS Code 27149000** - Bitumen, asphalt, natural.

Bitu-RM Binding Solution

CE certified bitumen mixture which can be used as a asphalt binder.

It can also be used in the production of bituminous membranes. Styrene-Butadiene-Styrene (SBS)

The best solution for asphalt producers. It is used as a binding material with same characteristics as virgin bitumen.

High % content of recycled bitumen

Exported as a European patented product under the **HS Code 27149000** - Bitumen, asphalt, natural.
