1Voice Community Recovery Center Annual Contribution

1Voice is a 501c3 non-profit Peer Support and Recovery Advocacy organization with a mission of strengthening peer support services in southeastern Indiana and providing education in regards to substance use-disorder.

We at 1Voice have identified your organization as a valued stake holder in the community, and are reaching out in hopes of your consideration to become an annual contributor towards the operations of the 1Voice Community Recovery Center. The community recovery center will be a safe and supportive environment for those in recovery, family members, and those interested in starting on their personal recovery path. Along with access to immediate treatment options and community resources, people will be able to utilize our recreational areas such as, arts and crafts, music, a self-help library, and much more.

The support of the community will be vital in the continued operation of the community recovery center, this is where we ask for your organizations help. Our goal is to obtain various levels of annual tax-deductible contributions from our community stakeholders. Each contributor will be recognized throughout the year as outlined on the attached contribution form.

Thank you for your consideration,

Aaron Spaulding
1Voice Project Coordinator
