

How to set an Appointment

Mobile Planet App

Once you log into your Mobile planet app, select Leads to enter your lead pool.

In your lead pool find the prospect you would like to contact

For training, if you are flipping a lead, you will select 'Now' and it will send them a link to join the existing Zoom.

If the prospect is not available until a later time select 'Later'

1. Creating appointment will immediately create a meeting in your Zoom account.					
2. Emails will be sent to both you and the lead.					
3. You are advised to conduct meeting from Laptop/PC and not the mobile device.					
4. Lead can join the meeting from any device.

Once you have selected the date, simply scroll down and find the time slot and click on it.

(The time slots are set in 30 min increments, but always let the prospect know that it will be within that 30 min window as presentations do sometimes roll into the next slot)

Verify date and time are correct, then select Create.
