MESSAGE FROM VILLAREAL "VJ" JOHNSON

I am grateful to share that we won panel 1 by passionately articulating the complex issues while offering pragmatic solutions despite the city's budget shortfall. One quote I shared during the forum was that "We don't cut essential programs or raise taxes. We trim government by cutting waste and being more efficient and effective to deliver more meaningful impact to ward 7 residents." I know what needs to be done and how to get it done. I am your champion prize fighter.
